City Government

The Mayor elect then addressed the Board of Supervisors as follows:

Gentlemen of the Board of Supervisors:

I have to congratulate you upon the auspicious circumstances attending the commencement of the municipal year, and more particularly upon the Constitutional Amendment recently adopted, which changes the time of holding the annual municipal election from September to March, thereby avoiding the excitement and confusion attending a State election, and securing a full vote of the people, and a fair expression of their will. The Amendment will also result in a saving to the City of Sacramento of a large amount of money, which has heretofore been expended in holding two elections each year, when only one is necessary. The Amendment will also result in a saving to the City of Sacramento of a large amount of money, which has heretofore been expended in holding two elections each year, when only one is necessary.

Report of City Physicians on Small Pox Vaccination

To the Board of Health

Gentlemen:

(Report of City Physicians.)

In October last, we had good reason to believe that Variola was prevailing in the adjoining City of Allegheny, and that persons from there were frequently passing through our City, and lodging in our public houses. We therefore deemed it our duty to call the attention of the Board of Health to the subject, and to recommend the vaccination of all persons who had not been vaccinated within seven years, and of all persons who had been vaccinated, but who were exposed to the disease. We also recommended the establishment of a Hospital for the reception of cases of Small Pox, and the adoption of such other measures as might be necessary to prevent the spread of the disease. Our recommendations were promptly complied with, and the Hospital was established, and placed under the charge of Dr. Wm. Wallace, who was appointed Resident Physician. Dr. Wallace has since been assisted by Dr. Wm. Wallace, Jr., and Dr. Wm. Wallace, Jr., has

Street Work Order Rejected

The following petition was offered by Alderman Glines

Whereas it appears that by the laying out and widening of Main Street by the County Commissioners, and the taking of land for the same, principally on one side of the street, such consideration was awarded for said land as the proprietors of the estate being benefited thereby

And whereas, estates on the line of the widening are benefited beyond the general benefit to all lands in the city, it is therefore

Ordered that assessment be assessed upon said estates benefited, on both sides of the street by equitably the benefits to all persons specially benefited thereby, to bring said assessment as near as may be effected by the County Commissioners in making the awards for land taken, as provided by Chapter 382. of the Acts of 1871.

The Petition was referred to the City Solicitor and Street Commissioner for consideration.

the Mayor and City Council

Gentlemen:

Since the decline of the epidemics of last summer the wards of this city have remained in a healthy condition.

Health of City Physician Report.

Many persons, who are entitled to the exclusion (as far as possible) of those who are able to pay, ordinary fees, are considered worthy subjects for charity, and have often claims on the physician's services, which are cheerfully rendered.

The City Physician, during the year, has visited the County Hospital, and the Poor House, and has found the inmates in a healthy condition.

The buildings are well ventilated, and kept in a clean and healthy condition.

The City Physician has also visited the City Prison, and the Station Houses, and has found the inmates in a healthy condition.

The City Physician has also visited the Magdalen Asylum, and found the inmates in a healthy condition.

The City Physician has also visited the Orphan Asylum, and found the inmates in a healthy condition.
