For school contingent expenses,	22,000.00
Total	$230,000.00

Referred to the Mayor.

√ Communication — Received from the School Committee the following communication,-

To the Board of Aldermen,
of the City of Louisville.
Gentlemen:-

At a meeting of the School Committee held January 29, 1902, it was unanimously voted to request your honorable body to provide the following additional accommodations for the schools:-
1 For Ward 2, by purchase, a six-room building in the immediate vicinity of the O. H. Knapp School or if more expedient one additions to the Knapp building containing four rooms and an assembly hall. Attention is called to the unsatisfactory sanitary and heating appliances in that building.

Thursday, February 8, 1900

2. Ward 7, the Hodgkins School — a six-room building in the immediate vicinity of the Hodgkins School to accommodate the districts lying west of Elm street

3. Ward 7, the Highland School — a six-room building in the immediate vicinity of the Highland School to accommodate the district bounded by Elm street, Cedar street, and Broadway

On the choice of location the Committee has been controlled by the desire to devote each of the large buildings exclusively to grammar school uses. To do this the primary children must be removed from these into some near-by building

The Committee respectfully represents that these rooms in each of these buildings would be occupied in September, 1900, if they were available, and that at the present rate of growth each of the buildings would be full by September 1902.

Respectfully submitted,

G. L. Southworth,

Sec'y.

Received from the School Committee the following communication, —

Communication returning, amended, report of 1899 with opinion of City Solicitor ✓

To the Board of Aldermen,
of the City of Somerville

Gentlemen: —

At a meeting of the School Committee held Feb 6, 1900, the following rules were unanimously adopted: —

Ordered, That the Annual Report of the School Committee of 1899 be respectfully returned to the Board of Aldermen with the statement that the School Committee, while failing to recognize the right of censorship as belonging to any co-ordinate branch of the City Government, and unable to assume any responsibility for the acts of preceding committees, desires to express its opinion that no reflection or disagreeing was intended by the Committee of 1899. A copy of the opinion of the City Solicitor "as to the authority of the present School Committee to make changes in the Report of the School Board of 1899" is sent herewith.

Respectfully,

Thursday, February 8, 1900.

G. A. Southworth,
Secy.
Copy of City Solicitor's opinion

Mr. Gordon A. Southworth,
Secretary of the School Committee.

My dear Sir:-

Your favor of February 2 is at hand, requesting my opinion as to the authority of the present school committee to make changes in the Report of the School Board of 1899.

There appears to be nothing in the general laws of the state, the former charter, the present charter, or the ordinances of the city requiring a report to be made by the school committee to the city government.

Chapter 46, sect. 8, of the Public Statutes, provides that "The school committee shall annually make a detailed report. The committee shall cause said report to be printed for the use of the inhabitants."

In the case of Wilson v. City of Cambridge, 101 Mass. 142, it was held that the school committee must not prepare and publish the whole of its report at one time, and that the city was bound to pay the expense of printing a report which the committee itself had caused to be printed.

Section 28 of the present city charter requires the school committee to "exercise the powers conferred, and discharge the duties imposed by law upon school committees." Among these powers and duties is that of making a report and causing the same to be printed, as above set forth. The school committee of last year decided upon a report, and, according to the practice heretofore in force, left the printing of the same to be arranged for by the City Government. That committee is no longer in existence (Public Statutes, chap. 44, sect. 35 as explained by statutes of 1865, chap. 134). Under the present city charter a new committee has taken its place. The former committee has expressed its opinion as to what statements should be made in the annual report. The expression of opinion, on any subject mentioned in that report, made by the present committee will be its own opinion, and not that of its predecessor, and in this sense it cannot change the report and hold it out as a report made by the former committee. For example, if that report contains a recommendation in favor of the enlargement of a certain school building, the present committee, if opposed to the recommendation, cannot change the report

Thursday, February 5, 1900

by the omission of such recommendation, and puts it forth, as the report of the committee of last year. The present committee, may however present its views on the subject in a report of its own.

The communication of the report to the city government in January by the Secretary, according to custom, was in effect little more than a request that the city government perform for the committee of last year the duty of causing a report to be printed, a duty as yet unperformed. It does not take from the present committee the former and duty, as above stated, of causing a report to be printed, and the present committee may now or at any other time request the city government to act for it in this respect, or may itself cause a report to be printed, without reference to the city government. If the present committee wishes to request or cause a report to be printed, it may do so at any time, and can incorporate therein "such statements and suggestions in relation to the schools as the committee deem necessary or proper to promote the interests thereof," and in the exercise of its discretion may include the whole or any part of the report of the committee of last year.

Yours very respectfully,
(signed) Frank L. Kenny

Rules of the Board of Aldermen

Article I

Meetings, Quorum, Proceedings.

Section 1. At all meetings of the board, whether by adjournment or by call of the mayor, a majority shall constitute a quorum for the transaction of business. (Revised City Charter, Section 11.)

Sect. 2. The president of the board, or, in his absence, the vice-president shall take the chair at the hour to which the board may have adjourned, shall call the members to order, and, a quorum being present, shall cause the minutes of the preceding meeting to be read. At any meeting of the board, in the absence of the president and vice-president, the eldest in age of the members present shall preside until a president pro tempore is elected. (City Charter, Section 13.)

He shall preserve decorum and order, may speak to points of order in preference to other members, and shall decide all questions of order, subject to an appeal to the board, by motion regularly seconded; and on the business shall be in order till the question on the appeal has been decided.

He shall declare all votes; but if any member doubts the vote, the chair, without further debate upon the question, shall require the members voting in the affirmative and negative, respectively, to rise, and stand, until counted, and he shall declare the result; but no such declaration shall be made, unless a quorum of the board has voted.

He may address the board, put a question, read, sitting

Thursday, February 6, 1902

Sect. 3 The president may call any member to the chair, provided such substitution shall not continue longer than one meeting. When the board shall determine to go into committee of the whole, the president shall appoint the member who shall take the chair. The president may express his opinion on any subject under debate, but in such case he shall leave the chair, and appoint some other member to take it; he may, however, state facts and give his opinion on questions of order, without leaving his place.

Sect. 4 On all questions and motions the chair shall take the sense of the board by yeas and nays whenever any two members present shall so require.

Sect. 5 The chair shall propound all questions in the order in which they are moved, unless the subsequent motions shall be previous in their nature; except that in naming sums and fixing times, the smallest sum and the longest time shall be first put; and when a motion is made to refer any subject, and different committees are proposed, the question shall be taken in the following order:-

1. To a standing committee;
2. To a special committee.

Sect. 6. After a motion is stated or read by the chair, it shall be deemed to be in possession of the board, and shall be disposed of by vote; but the mover may withdraw it at any time before a decision or amendment, by unanimous consent.

Sect. 7. When a question is under debate, the chair shall receive no motion but to adjourn - to lay on the table - the previous question - to postpone to a day certain - to commit - to amend - or to postpone indefinitely; which several motions shall have precedence in the order in which they stand arranged, and the first two shall be decided without debate.

On a motion for the previous question, not exceeding five minutes shall be allowed for debate, and no member shall speak, except in opposition to said motion, or more than two minutes. The previous question shall be put in the following form - "Shall the previous question be now put?" All questions of order arising after a motion is made for the previous question shall be decided without debate, excepting on appeal; and on such appeal no member shall speak more than two minutes or more than once, without permission of the board. The adoption of the previous question shall put an end to all

Rights and Duties of Members

Section 1 Every member when about to speak shall rise and respectfully address the chair (Mr. President) and confine himself to the question
under debate and avoid personalities

Sect 2 No member speaking shall be interrupted by another but by
rising to a point of order or for explanation

Sect 3 No member shall speak to the same question more than once
until all other members desiring to speak shall have spoken

Sect 4 No member shall be permitted to vote on any question or serve
on any committee where his private interest is immediately concerned
distinct from that of the public; and every member, except as above, who
shall be in the board when any question is put, shall vote unless the board
for special reasons excuse him. Application to be excused or any question must be made before the board is divided, or before the calling of the yeas and nays, and such application shall be accompanied by a brief statement of the reasons, and shall be decided without debate

Sect 5 A question having been taken, it shall be in order for any
member to move a reconsideration thereof at the same meeting, or
at the succeeding meeting, provided the subject of the vote shall not
have passed out of the custody of the board, but the subject shall not
be reconsidered unless a majority of the whole board shall vote therefor
A more than one motion for the reconsideration of any vote shall be en-
tertained

Sect 6 Every motion shall be reduced to writing if the president direct
or if any member of the board request it

Sect 7 The decision of a question may be called for when the same
will admit of it

Sect 8 When the reading of a paper is called for, and the same is
objected to by any member it shall be determined by a vote of the board

Sect. 5. No member of a committee of the board of aldermen shall directly or indirectly take part in the employment of labor, the expenditure of public money, the making of contracts, the purchase of materials or supplies, the construction, alteration or repair of any public works or other property, or in the care, custody or management of the same, or in the conduct of the executive or administrative business of the city. (Revised City Charter, Section 49.)

Sect. 6. No committee shall sit during the session of the board without special leave.

Article V

Ordinances, Orders, etc.

Section 1. In all votes, when the board expresses anything by way of command, the form of expression shall be "Ordered"; and when it expresses opinions, principles, facts, or purposes, the form shall be "Resolved."

Sect. 2. Every ordinance shall have two several readings, after which the question shall be on passing the same to be enrolled; and when it shall have been passed to be enrolled, it shall be enrolled by the city clerk and examined by the committee on ordinances and rules; and on being found by said committee to be truly and correctly enrolled, the same shall be reported to the board, when the question shall be on passing the same to be ordained. After its passage to be ordained it shall be signed by the president. Any ordinance may be rejected at either stage in its progress.

Sect. 3. No enrolled ordinance shall be amended.

Sect. 4. All ordinances, before being passed to be enrolled, shall be printed and a copy laid on the desk of each alderman for examination.

Sect. 5. Every resolution shall have two several readings before the question shall be taken on its final passage.

Sect. 6. All orders authorizing the doing of acts or the expenditure of money shall have two several readings before they shall be finally passed; and no order authorizing a loan shall have more than one reading on the same day.

Sect. 7. Any ordinance, order or resolution of the board of aldermen may be passed through all its stages of legislation at one session, provided that no member of said board objects thereto; but if one or more members object the measure shall be postponed for that meeting; and

Thursday, February 8, 1900

if such veto is not brought up for a reconsideration by five or more members present at that meeting, a second postponement of at least one week shall take place (Revised City Charter, Section 15.)

Sect. 8 Every ordinance, order, resolution, or vote of the board of aldermen, except such as relate to its own internal affairs, shall be presented to the mayor. If he shall approve thereof, he shall signify his approval by signing the same; but if not, he shall return the same with his objections, to the board of aldermen, which shall enter the objections of the mayor at large upon its records, and proceed to reconsider said ordinance, order, resolution, or vote, and if, after such reconsideration two-thirds of all the members of the board vote to pass the same it shall be in force. But in all such cases the vote shall be taken by yeas and nays. If such ordinance, order, resolution, or vote shall not be returned within ten days after it has been presented to the mayor, the same shall be in force (Revised City Charter, Section 16.)

Sect. 9 No report, or indorsement of any kind shall be made on disapproved ordinances, or other papers referred to committees, while in their possession.

Sect. 10 "Cushing's Manual" shall be the authority on all questions of debate or practice not otherwise provided for, when the same does not conflict with the rules of the board of aldermen.

Article VI.

Duties of the Clerk.

Section 1. The city clerk shall have charge of all journals, records and documents of the board of aldermen, and attest all warrants. He, the clerk of the board of aldermen (City Charter, Section 13), shall attend all its meetings, shall record the names of the members present, and keep a journal of all acts and proceedings. He shall have the care and custody of the city records and of all documents, maps, plans, and papers respecting the care and custody of which no other provision is made. In his absence a clerk of the board of aldermen pro tempore shall be chosen, who shall be sworn to the faithful performance of his duties. (See Revised City Charter, Section 31.)

Article VII.

Alteration, Repeal or Suspension of Rules.

Section 1.

Thursday, February 8, 1900

No standing rule of the board shall be suspended, unless three-fourths of the members present shall consent thereto; nor shall any rule be repealed or amended without at least one days notice of the motion therefor, nor unless a majority of the whole board shall concur thereto.

Rules suspended and order adopted.

√ Order

Alderman Pike offered the following order,

Ordered:-

That the rules of the board be so amended, as to provide that the committee on Grade Crossings be increased so as to consist of five members, instead of three as now constituted

Rules suspended and order adopted

√ Appointment

In pursuance of the foregoing rules, according rules of the board, the President appointed as a committee on Grade Crossings - Aldermen Story, Littlefield, Caldwell, Garner & Hilden.

√ Order

On the order presented at the last meeting granting a license to James F. Bradley to keep one billiard and four tables at 9 Bow street, action on which was postponed under section 15 of the Charter, until this meeting, action was again postponed until the next meeting.

√ Resolution

On the resolution offered at the last meeting that in the opinion of this board it is inexpedient to further increase the indebtedness of the City against law, action on which was postponed under section 15 of the Charter, until this meeting, action was again postponed until the next meeting.

√ Order

On the order offered at the last meeting for the printing of the annual reports for the year 1899, which order at said meeting was read, once and laid on the table, Aldermen Quinmore offered an amendment for the insertion, after the words in the third line, "various boards" of the words "the school board excepted" and for the striking out of the items which read "1000 copies of report of school committee." The amendment was lost.

Thursday, February 8, 1900.

Alderman Smith moved to amend by providing that the objectionable paragraph in the report of the school committee, on account of which the school report was returned to that committee at the last meeting of this board, be stricken out.

The amendment was lost.

The order as presented was then given its second reading and was adopted.

The order is as follows:-

Ordered:-

That the City Clerk be and he hereby is authorized to obtain proposals to print fourteen hundred copies of the Annual Reports of the various boards and officers of the city for the year 1899, together with the inaugural address delivered by his Honor the Mayor, January 1, 1900 and such other documents as are usually printed with the annual reports or may be ordered to be printed therewith.-

One thousand and fifty copies to be bound in paper, two hundred and seventy-five in cloth, and seventy-five for presentation to other cities, towns and institutions, in full morocco; also to print additional copies of certain reports, as follows:-

200 copies of Report of Board of Health,

300 " " City Engineer,

200 " " Overseers of the Poor, with the City Physicians' Report,

1500 " " School Committee,

500 " " Trustees of Public Library,

150 " " Water Commissioners.

The reports and documents are to be printed under the direction of the City Clerk, who is hereby authorized to make such changes in the style and setting, and in other respects, as he may deem desirable to effect a reduction in the size of the book; the expense incurred to be charged to Printing and Stationery account.

Read twice and adopted

Approved by the Mayor, Feb. 9, 1900.

On motion of Alderman Buchanan it was voted that when the board adjourns it adjourn until Wednesday evening, Adjournment

City of Somerville, Mass. -
Mayor's Office
February 16, 1900.

To the Board of Aldermen,
Gentlemen:-

I return, without my approval, an order passed by your Honorable Board, Feb 5th, which reads as follows:-

City of Somerville
In Board of Aldermen, Feb 5th 1900

Ordered:-

That the Committee on Electric Lines and Lights be and are hereby authorized to make such changes in the location of street

lights in the City, as in their judgment may seem expedient, the expense so incurred to be charged to Street Lights Account.

My reason for this action is, that, in the opinion of the City Solicitor, expressed in the communication herewith transmitted, the order conflicts with the City Charter.

Under the Charter it is the province of the Board of Aldermen to determine, subject to the Mayor's approval, where street lights shall be located, and what changes, if any, shall be made in the locations of those already erected; but the work so decided upon is to be performed by the proper executive officer.

Respectfully submitted,
Geo. O. Gordon, Mayor

√ Opinion

The opinion of the City Solicitor accompanying the foregoing veto message, is as follows:-

City of Somerville.
February 10, 1900.

George O Gordon, Esq, Mayor
Dear Sir:-

Your favor of February 9 is at hand, asking for my opinion relative to the right of a committee of the Board of Aldermen to perform the duties mentioned in an order dated February 5 which reads as follows:- Ordered:- That the Committee on Electric Lights and Lights be, and are hereby authorized to make such changes in the location of street lights in the city as in their judgment may seem expedient, the expense so incurred to be charged to Street Lights Account.

I think the committee has not the right to perform such duties. Sections 2, 20, 41 and 49 of the charter. In general, under the present charter, the legislative department determines what shall be done, the executive department attends to the doing of it.

Very respectfully,
Frank A. Kyes,
City Solicitor.

√ Communication concerning collection of ashes and changing fees for permits

Received the following communication from his Honor the Mayor -

City of Somerville, Mass.
Mayor's Office
March 5, 1900.

To the Honorable the Board of Aldermen,
Gentlemen -

I desire to call your attention to two subjects which it seems to me may well be regulated by ordinance.

The ashes, rubbish, discarded household utensils, etc., now collected by the Board of Health, are all placed by householders in the same receptacle, rendering the better portions unfit for many purposes for which they might otherwise be used.

The service rendered by the city is a great accommodation to the people, and such reasonable regulations as may be necessary may very properly be enforced.

I would recommend that householders be required to keep ashes in separate receptacles, free from all papers, rubbish and filth of every kind.

If such a provision be carried out the ashes can be utilized to a large extent, on new streets and sidewalks, and for filling to a suitable level the large pond, formerly called the Myrtle Pit, in Lincoln Park. The Board of Health would also be enabled to remedy the unsightly condition of the ash dumps and stop the annoyance to neighbors caused by the litter of papers, tin ware, etc. If collected separately, the combustible materials could be burned at once, and the remainder properly disposed of.

Thursday, March 8, 1900.

For this matter, in relation to the issuing of permits for privileges in the streets, such as opening the streets for various purposes, using fountains while building, etc. Concidentle work, and conclusions upon different city officials in these matters, and it seems proper that a suitable fee be collected from those to whom the special privileges are granted. This practice prevails in some cities, and I recommend that the custom be adopted in Somerville

Respectfully,

Geo. O. Foster,

Mayor.

Received the following communication from the Water Commissioners, Communication

City of Somerville,

Office of the Water Department

City Hall

March 5, 1900.

To the Board of Aldermen:-

In accordance with the resolution adopted by your Honorable Board and transmitted to me March 6, requesting the Water Commissioners to consider the advisability of reducing the charge for the use of hydrants to take effect as of date January 1, 1900, I respectfully state that in view of the fact that the annual water bills have all been issued and that a large number have been paid, it does not seem to me expedient to make any reduction for the use of hydrants the present year.

Water Commissioner.

Placed on file

Received the following communication from the Trustees of the Public Library. Communication

To His Honor the Mayor & Board of Aldermen:-

The Board of Trustees of the Public Library to whom

Thursday, March 5, 1908

your honorable body has refused the petition of Jones Bay and others that a delivery station and reading room shall be established at 385 Beacon Street, Somerville, have duly considered the matter and beg leave to report as follows:

Primarily the Board beg to state that a request of this nature bearing the signatures of so many of our prominent citizens should command, and has received its careful consideration.

Prior to this time, however, a similar petition bearing many of the same prominent names was presented directly to this Board but on receiving the written opinion of the city solicitor that the Board would not be authorized in incurring the necessary expenses the request was denied.

It is the unanimous opinion of this Board that at this time they cannot conscientiously recommend an appropriation sufficient to establish such a reading room for the following reasons:

1st. Owing to the extraordinary appropriations necessary at this time as consequence of the addition to the Library building and the furnishing thereof, it is not deemed prudent to undertake any further extension of Library privileges.

2nd. The new reading room which will soon be open to the public will in the opinion of the Board, provide as much greater facilities that at the present time, no further expense is warranted, we think, discretion.

3rd. That if a reading room is to be established a more central location should be selected, and one that would better accommodate the residents of our city.

Respectfully submitted,

Chas. A. Fest,

President, Board of Trustees,

Somerville Public Library.

On the Belmont street hearing, Mr. George B. Forman appeared and objected because the income derived from the house which he owns on Belmont street and lets, is so small that it will not warrant the outlay of the amount of the assessment

On the Hancock street hearing Mrs. Bridget Cantillon appeared and objected because she cannot afford to pay the assessment.

No other persons interested appearing and desiring to object the hearings were closed

1 Hearing

On pursuance of an order passed March 22nd, a hearing was given for all persons desiring to object to the granting of the petition of the Columbia Jewelry Company of 22 Milford street, Boston John J. Liang, Treasurer, for permission to erect and use a gas or gasoline stationary engine of 10 to 15 horse power on a building to be erected on the easterly side of Clifton street next to the Arlington Branch railroad, to be used as a jewelry manufactory, notice of the hearing having been duly published by the petitioner as required by said order

No persons interested appearing and desiring to be heard, the hearing was closed

Communication

Received the following communication from his honor the Mayor -

— City of Somerville, Mass. —
Mayor's Office

April 6, 1900

To the Honorable the Board of Aldermen,
Gentlemen -

It seems desirable that provision be made for an assistant to the commissioner of public buildings.

The duties devolving upon this officer are such as to require a thoroughly competent man. He is charged with the care, repair and maintenance of all buildings owned by the city, the employment

Thursday, April 12, 1900

and control of the issuing, and the erection of new public buildings he is also required to supervise the construction of all buildings of every nature erected within the city limits, and to see that the building laws and ordinances are complied with.

I believe it would be a measure of economy and in every way for the best interests of the city to provide him with a competent assistant A suitable man could probably be obtained for the position possessing the requisite practical ability for an inspector and also having sufficient knowledge of architecture to draft the plans for ordinary public buildings.

I therefore recommend that the sum of nine hundred dollars be transferred from Contingent Fund account to Inspection of Buildings account to cover the salary of such an assistant for the remainder of the year at the rate twelve hundred dollars per annum.

Respectfully.

Order V for the laying of sewe... for sundry ...

That whereas by an order, dated April 26, 1900, and adopted by the Board of Aldermen April 26, 1900, and approved by the mayor April 26, 1900, (all the above being done, and completed prior to the offering and passage of this order), to which order said first named order, and the schedule thereto annexed, reference is hereby made as a part hereof, it was adjudged, and determined that certain public ways or streets and portions of public ways or streets, all as particularly specified in said schedule, should be watered in the present municipal year, at the expense in part of the abutters thereon,

Now, Therefore, it is hereby Adjudged, Estimated and Determined by the Board of Aldermen, as follows, namely: that expense of the watering of said streets and portions of streets, as in said schedule specified, for the present municipal year, nineteen hundred, is estimated and determined to be the sum of seventeen thousand dollars; the proportion of such expense to be borne by abutters upon such streets and portions of streets is estimated and determined to be seventy-eight per cent, the rate to be assessed upon each linear foot of frontage of estates upon such streets and portions of streets is estimated and determined to be four cents.

That the expense determined as aforesaid of such watering to be borne by the abutters shall be assessed in the manner hereinafter provided upon the estates abutting on said streets and portions of streets in proportion to the number of linear feet of each estate upon said streets and portions of streets as watered.

That the amount of such assessments upon each such estate shall be determined in accordance with the foregoing provisions, and according to the law in such case made and

Received the following communication from his honor the Mayor.

City of Somerville, Mass.
Mayor's Office
May 7, 1900

To the Honorable the Board of Aldermen,
Gentlemen:-

I herewith return, without my approval, an order passed by your Honorable Board April 26th, which reads as follows:-

Ordered: That Davis Square be paved with cobbled bricks the expense so incurred to be charged to Paving Davis Square account

My objection to this order is, that a brick pavement is much more expensive than granite block paving

Our city engineer estimates the cost of paving Davis Square with cobbled bricks to be $7,867.00, while the best granite block paving can be had at an estimated expenditure of $6,547.00 (and if some

Thursday, May 10, 1900

ing with the latter, $900.00 additional), a saving of $1,620.00, or nearly 20%, in favor of granite block paving laid in the usual way.

The expense of annually maintaining brick paving would necessarily exceed that of granite block paving, as the latter can be taken up and relaid as often as necessary, while with brick new material would have to be used every time any repairs were made, as the removal and relaying of a section would necessarily

In addition to the first cost, the life of the pavement is an important matter for consideration, and it cannot be conceded that granite blocks will last as long as any kind of brick, and thus obviate the necessity of repairs, for a comparatively short term of years.

While vitrified brick paving has been used to a considerable extent on the West, it cannot be regarded as in an experimental stage in Eastern cities. The adjoining city of Cambridge has used it in some of its streets, but it has not yet stood the test of sufficient time thus to prove its desirability beyond question. Somerville has had no experience with this paving, excepting a few gutters and crossings, and it would be well for our city to await a wider usage than exists of this experiment in Cambridge.

The paving of highways is, at best, an very expensive matter, and can only be done in Somerville to a comparatively small extent. It is therefore necessary to use the material which in the most practical way fills the requirements of economical construction and maintenance, durability, and general satisfaction, and at present these requirements debars all save the use of the granite block.

The amount of the appropriation for paving Davis Square, which is $5,000.00, is inadequate for the purpose. It will therefore be necessary to increase the appropriation before any paving can be done.

Respectfully,

Geo O Proctor,

Mayor

Received the following communication from his Honor the Mayor - Communication ✓

City of Somerville, Mass.
Mayor's Office.
May 4, 1900.

To the Honorable the Board of Aldermen
Gentlemen:-

I return herewith, without my approval, an order passed by your Honorable Board April 26th which reads as follows:
Ordered: That the several heads of departments in the city hall be and they are, directed to appoint a sufficient number of male assistants to perform the work in their departments.

My first objection to this order is that it is unauthorized. The sections of the city charter, the several heads of departments have full power to appoint all assistants, subject only to the approval of the mayor.

The order is also objectionable because I request it be entirely cancelled. Ladies have been employed as assistants in the several departments ever since the city was incorporated, and I have never heard any complaint of the manner in which they performed their duties. On the contrary, persons having business in the different offices have repeatedly spoken of the remarkably courteous and intelligent service rendered by these clerks. In compliance with the order passed in order the discharge of several of them to make place for an equal number of men without experience, who might or might not, after gaining the experience, be as efficient and trustworthy as those removed. Moreover, it would be impracticable to place these new clerks at the counter until they should first have become sufficiently familiar with the business to answer questions intelligently, and to make out

Thursday May 10, 1900

the different papers which the work requires. It is therefore plain to me that confidence with the order would, at least temporarily, injure, rather than improve the public service. It is also true that many of the capacity and stability of character and habits required for these positions would demand much greater compensation than the female clerks now receive.

I do not think anything is to be gained by substituting male for female clerks, and I should certainly withhold any approval from any measure or appropriation made solely for that purpose. In saying this, I do not mean to discriminate against men, as I would take similar ground if the conditions as to age were reversed. I mean simply that the women now holding these positions are fully competent to perform the duties, and there is no reason whatever why they should be removed.

I do not if there can be found in any city a more faithful and efficient clerical force, whether male or female, than we have at present in our City Hall.

Of course, customers sometimes wish to speak with the heads of a department, and ordinarily they may be found at their desk. For the past two months, however, the city treasurer has been absent on account of illness, but the business has been managed with ease, ability by his first assistants, with the aid of a faithful corps of clerks, and the interests of the city have not suffered in any respect. The treasurer has now resumed his duties, is much improved in health, and there is no occasion for any anxiety on account of his department.

To state briefly my objections to the order, I would say that it is unauthorized, and, in my opinion, prejudicial to the best interests of the city.

Respectfully,

Geo. O. Proctor,

Mayor.

The special committee appointed, at the last meeting, to confer with the mayor relative to the condition of City Treasurer John F. Hyde, reported as follows:- Report ✓

To the President and Gentlemen of the Board:-

In accordance with your desire your committee interviewed the Mayor and talked over the situation at some length, stating to him the sentiment of a number of the members of the Board and their desire to know exactly the condition of affairs that should any action be necessary, they might act intelligently.

It was the unanimous opinion of your committee that it would be for the benefit of our confreres before this Board, in a manner to avoid embarrassment, if the Mayor were to reduce his position in the matter to writing.

With this object in view, and to avoid as very possible mis-

interpretations of his views, by making a verbal report, your committee begs leave to submit as its report the accompanying communication from the Mayor.

Respectfully submitted for the Committee,
James H. Kenney, Chairman
Samuel F. Littlefield,
Charles A. Glammann.

City of Somerville, Mass.
Mayor's Office

May 7, 1900.

To the Committee appointed by the Board of Aldermen to confer with the Mayor in regard to the continued illness of the City Treasurer.

Gentlemen:- In compliance with your request for my opinion relating to the city treasurer and the condition of the business in his department, I respectfully submit the following facts and conditions as they appear to me.

Treasurer Hyde has been seriously ill, and for over two months was unable to perform the duties of the office, except to sign papers requiring official signature, and that duty he has not failed to execute as often as was required. The work in his office has been efficiently performed by the regular force of assistants, under the able and faithful management of Miss Pierce, his first assistant. The mayor has made daily inspection of his department, has negotiated the loans which have been required, and performed some of the other important duties, and I think it can be shown that there has been no neglect of duties, or pecuniary loss to the city in any way resulting from the temporary absence of the treasurer.

I am happy to report that Mr. Hyde has resumed his duties at the office, and is much improved in health. The work of his department will be much lighter for the next three months than during the past quarter, and I believe there need be no further cause for anxiety. Mr. Hyde is much stronger, and seems to be as well in every way as he has been for six months or more, and I feel quite confident that by exercising proper care not to work beyond his strength, and under the advice of his

Thursday, May 10, 1900.

physician, that he will be able to attend to the various official duties, and regain his health again. He has contemplated resigning the office, and should his health not continue to improve, I have no doubt he will do so.

I have consulted with his physician, Dr. White, and he expresses the opinion that he will continue to gain, and with the precautions on hand, he thinks that he may be as well, and as able to perform his duties, as he was last season.

I appreciate the position of your Committee, and the Board of Aldermen, I know their object is to act for the best interests of the city, with due regard and the kindest consideration for all parties concerned, and I am sure you will act with conscientious wisdom and impartiality.

Very respectfully yours,

Geo. O Proctor, Mayor

√ Hearing

In pursuance of an order, approved May 11, a hearing was given to all parties interested in the petition of the West End Street Railway Company for double track locations in Grove, Pearl and Milford streets, due notice of the hearing having been given by the City Clerk as appears by his return recorded on page 256 of volume 1 of the Records of Boles and Hires, Street Railways and Paving Buildings, of the Mayor and Aldermen of the City of Somerville.

Louis F. Hyde, Esq., appeared in behalf of the West End Street Railway Company and its lessee the Boston Elevated Railway Company, and explained that the double-track locations were desired instead of the present single tracks with turnouts, to serve the convenience both of the company and the public. The compensation tax which the city received would be increased at the rate of $200 per mile of single track added.

Mr. Louis F. Davis also appeared in the matter. He considered that the convenience of the travelling public demanded double tracks at least in Grove street, and he thought he represented the general sentiment of the abutters on that street in favoring the petition provided the street be paved in such a way that the residents will not be annoyed by the noise, and for he considered that granite block paving would be very objectionable, as it would practically destroy the homes of the abutters and injure the business carried on upon the street.

Mr. Dutcliffe, residing on Pearl street, appeared, and objected to the laying of double tracks in that street for the reason that two tracks would be dangerous, and an annoyance. For the streets enter Pearl street between Grove street and Gilman square,

Tuesday, May 29, 1900

and be thought the additional tracks, with the heavy teaming
passing through the street, would be dangerous to the large num-
ber of children living there. He thought the convenience afforded by
the single-track system was sufficient and hoped the double track
locations would not be granted.

No other persons interested appearing and desiring to
be heard, the hearing was closed.

Received petitions for licenses
to collect junk and rags calling in the streets from Israel Lipkind, Michael
McCarthy, Enoch Rosenbaum and Charles St George;
to buy goods in the streets from William Bryant and George H. Edwards;
to ring a bell in the streets for the sale of ice-cream, from George L. Phillips;

Thursday, June 7, 1900.

reported orders
Accepted

The orders submitted with the foregoing report, with an additional order offered by Alderman Story, for the construction of common sewers in a passageway off Bodwell street, Guilford avenue, a storm water drain & sewer in Bedford street & Richdale avenue are accepted, respectively, per pages 718 & 720 of volume 1, and page 521 of volume 2 of the Records of the Taking of Land For & Orders to Construct Sewers of the Mayor and Aldermen of the City of Somerville
Read twice and adopted
Approved by the Mayor June 5, 1900.

Order ✓

Alderman Story offered the following order:-

Ordered:-

That his Honor the Mayor be and he hereby is authorized and requested to execute and deliver in the name and behalf of the city the agreement recorded with this order, between the City of Somerville and the City of Cambridge in regard to the construction and maintenance of common sewers in Curtis street and Kenrick court in the Cities of Somerville and Cambridge; provided, however, that this order shall be null and void unless the City of Cambridge shall within thirty days from the approval of this order by the Mayor, deliver to the City of Somerville said agreement duly executed
Adopted
Approved by the Mayor, June 5, 1900.

Order ✓

The agreement referred to in the foregoing order is as follows:-

Agreement between the City of Cambridge and the City of Somerville, municipal corporations in the County of Middlesex, and Commonwealth of Massachusetts.

Agreement ✓ Sewers - Curtis & Kenrick Courts

Whereas the late abutting on Kenrick Court as shown by the plans hereto annexed, and referred to as a part of this agreement are partly within the City of Somerville and partly within the City of Cambridge, and:-

Thursday, June 1, 1905

Whereas, an adequate outlet for the drainage of certain lots cannot be provided by the existing sewers in the City of Cambridge, but can be secured by connecting with the main trunk sewer in Beacon Street in the City of Somerville

And it is covenanted, declared, and agreed by and between said Cities in manner following, namely:

1.

That the City of Somerville will construct the sewer from the main sewer in Beacon street through Curtis Street to the line between the cities of Somerville and Cambridge. Said sewer to be of the pipe and laid upon the grades as shown upon the plan, above referred to.

The cost of constructing said sewer to be paid by the City of Cambridge. The City of Somerville to forever maintain and keep in repair that portion of the sewer

2.

The City of Cambridge shall at its own expense construct the sewer from the dividing line between the Cities of Somerville and Cambridge in Curtis street and Harris Court, as shown on the said plan, and perpetually maintain and keep it in good repair.

3.

That the City of Cambridge shall never extend the sewer in said Curtis street and Harris Court beyond the lines and limits, as shown by the red lines on said plan, indicating the length and location of said sewer, nor at any time build said sewer of a size larger than the size indicated on the plan, namely, of ten inch pipe, and twelve inch pipe, nor build any other drain or sewer to connect with or discharge into said Curtis Street and Harris Court sewer, nor allow to be built any drain or sewer, which shall discharge into said Curtis Street and Harris Court sewer, except drains for the accommodation of estates directly abutting on said Curtis Street and Harris Court, and within the limits as shown by the blue lines on said plan, and that in general said Curtis Street and Harris Court sewer shall not be or any way used except for draining said Curtis Street and Harris Court, and conducting away sewage from the estates directly abutting as aforesaid on said Curtis Street and Harris Court, said sewer being intended only for the use of, and the use to be strictly confined to, the estates abutting as

Thursday, June 7, 1900.

aforesaid, on said Curtis Street, and Harris Court, so that no passage or drainage from any other streets or estates shall be conducted through the same, except by and with the previous consent of the City of Somerville.

4

That those persons or estates lying wholly or in part in the City of Somerville, abutting on said Curtis Street and Harris Court, shall have the right respectively to enter their particular drains for the benefit of said estates into said Curtis Street and Harris Court sewer upon the payment to the City of Cambridge of such assessments as may be levied upon said estate based upon the usual rate charged by said City of Cambridge at the time said connection is made, the connections thereinto to be made in accordance with the rules and regulations of the City of Cambridge in regard to entering particular drains into common sewers.

In Witness Whereof, the said City of Cambridge has caused its corporate seal to be hereto affixed, and these presents to be signed in its name and behalf by its Mayor, and the said City of Somerville has caused its corporate seal to be hereto affixed and these presents to be signed in its name and behalf by George O. Carter, its Mayor, the said Mayor being hereto duly authorized by order of the City Councils respectively of said cities, copies of which, are hereto annexed, - this day of 1900.

Thursday June 14, 1900 (continued from Volume 29)

The orders submitted with the foregoing reports with certain additional orders offered by Aldermen Cushman, are as follows:

Orders ✓

Ordered: That a permit be issued to the Cambridge Gas Light Company to lay gas pipes as follows:-

a 3-inch gas main in the southerly side of Otford street, from a point about 350 feet east of Trull Lane to a point about 250 feet west of Trull Lane, as indicated on a plan filed with the City Engineer, dated Oct 25, 1899, and entitled "Proposed Location of a 3 inch Gas Main in the Southerly side of Otford street between points marked A - A" Cambridge Gas Lt Co.

Agreement filed August 11, 1903

Such permit shall not issue until the said Cambridge Gas Light Company shall have first filed with the City Clerk, an agreement in writing, satisfactory to the City Solicitor, to restore the streets in which said gas pipes are to be laid, immediately after the laying thereof, to good condition satisfactory to the Commissioner of Streets, to maintain said gas pipes at all times in a manner satisfactory to said Commissioner, to save the city harmless from all liability for damage by reason of the laying or maintenance of said pipes, and to reimburse the city for any expense which it may incur on account of such laying or maintenance, and for such other protection of the interests of the city as the city solicitor may deem advisable.

Ordered: That a permit be issued to the Charlestown Gas & Electric Company to lay gas pipes as follows:-

Agreement filed June 30, 1903.

a 4-inch gas main in the southerly and southwesterly sides of Dell street, from the gas main in Elm street to the gas main in Tufts street, as indicated by a plan filed with the City Engineer, dated June 6, 1900, made by Charles A. Perkins, and entitled "Chas. Gas & Electric Co. plan of Dell St. in Somerville."

Such permit shall not issue until the said Charlestown Gas & Electric Company shall have first filed with the City Clerk, an agreement in writing, satisfactory to the City Solicitor, to restore the streets in which said gas pipes are to be laid, immediately after the laying thereof, to good condition satisfactory to the Commissioner

Hearing Buildings of the Mayor and Aldermen of the City of Somerville.

Ordered:-

That the Pacific Mutual Telephone and Telegraph Company of Massachusetts, a corporation organized under the laws of the Commonwealth of Massachusetts, and having its principal place of business in Boston in said Commonwealth, be and it is hereby authorized and licensed to erect, construct, maintain and use such lines of its lines, upon and along

Broadway, between Dexter street and Curtis street, 59 poles, for the purpose of relocating and reconstructing its line of poles now standing; this license and permission being granted upon the same conditions, terms and requirements as expressed and enforced by an order passed by the Board of Aldermen of this city July 9, 1890, as amended August 13, 1890, granting locations for the said line of poles now standing; said locations being designated in said order as on Broadway from Milford street to Holland street; it being understood that the agreement to be given by said company in no way relates to the ninth condition stated in said order of July 9 and August 13, 1890, shall apply to the locations granted by this order only so far as the said condition may be valid and lawful. (See order on page 22 rescinding this order.)

Indefinite

Agreement filed June 24, 1902

Ordered:-

That permission be hereby granted the West End Street Railway Company to establish, construct, maintain and use the overhead single trolley electric system of motive power as called for in the location of the same on those parts of the following named streets in which locations for tracks were granted by an order of this board

Thursday, June 14, 1900

dated July 31, 1899, as shown by the plans of such locations on file in the office of the city clerk, namely - Broadway, College avenue and Boston avenue, and to erect, construct, lay, maintain and use the necessary poles, wires and other appliances and apparatus, and to make the necessary underground and surface alterations in said parts of streets, subject to the following conditions:-

All work of construction, and the kind and quality of material used, and the quality, material, height and diameter of all poles erected, and the height and location of wires, and as to the manner the establishing, construction and maintenance of said electric system shall be, satisfactory to the commissioner of electric lines and lights, subject at all times to the direction and control of this board. The poles shall be kept well painted, of a uniform color and in good condition, to the satisfaction of said commissioner. The right to maintain said system in any of said streets or any part thereof may be revoked by this board at any time, and said poles or any of them and the wires and other appliances and apparatus shall be removed by said Company when so directed by this board, after sixty days' notice to said Company that the location of such poles has been revoked, and the streets shall thereupon be restored by said company to proper condition to the satisfaction of the street commissioner. If the company fails to make such removal and to restore the streets as above provided, the city may do so and collect the expense thereof from the company.

No poles shall be erected until a plan showing the particular location of each pole, and containing a statement of the materials and dimensions of the poles proposed to be erected, has first been filed by said West End Street Railway Company with the city clerk and been approved in writing thereon by said commissioner of electric lines and lights, and poles shall be placed only upon the particular locations substantially as indicated by said plan. The wires shall be of such kind and so placed and maintained as not to interfere with the operation of the wires of the city.

Said poles on the northerly side of Broadway from Main street to Medford street shall be of iron; at the junction of Broadway and College avenue, they shall be of iron; on the westerly side of

Thursday, June 14, 1900

College avenue from Broadway to the boundary line of the City of Medford, they shall be known, on the southerly side of Boston avenue from the boundary line of the City of Medford to the boundary line aforesaid city at Mystic River, they shall be of hard pine, Providence pattern.

The wires of said system shall be attached to the poles above described, and to the poles of other companies, under agreements between the West End Street Railway Company and said other companies, as follows:

on the southerly side of Broadway from Medford street to Curtis street, and on the southerly side of Broadway from Main street to Central street, on poles of the The New England Telephone and Telegraph Company of Massachusetts;

on the southerly side of Broadway from Central street to Dillon avenue, on poles of the Somerville Electric Light Company;

✓ Petition to Superior Court for abolition of grade crossing over tracks of F.R.R. at Medford street. (see page 4-b)

The petition presented with the foregoing report, as signed by the Mayor and Aldermen, is as follows:-

Commonwealth of Massachusetts

Middlesex ss.

Superior Court.

To the Honorable the Justices of the Superior Court sitting in Equity for the County of Middlesex.

Petition of the Mayor and Board of Aldermen of the City of Somerville, a municipal corporation within the said County of Middlesex.

Your petitioners respectfully represent:

Thursday, June 14, 1900

That there is a public way in said City of Somerville called Medford street, which is crossed at grade by the tracks of the Fitchburg Railroad Company, a corporation established under the laws of said Commonwealth and operating a steam railroad thereon, that your petitioners are of the opinion that it is necessary for the security and convenience of the public that an alteration should be made in said crossing, now the approaches thereto, in the grade of either or both said ways and said railroad, and in the location of either or both said railroad and said way, so as to avoid a crossing at grade and so that said way shall pass either over or under said railroad.

Therefore your petitioners pray that a commission may be appointed as provided in chapter 463 of the Acts of the Legislature of said Commonwealth for the year 1890 and acts in amendment and addition thereto, to decide if such alterations are necessary, as aforesaid, to prescribe the manner and limits within which such alterations shall be made, to determine which party shall do the work, or to apportion the work to be done between said Fitchburg Railroad Company and said City of Somerville, to apportion between said Commonwealth and said City of Somerville their proportion of the cost of such alterations and make such other and further decisions in the premises, as may be authorized by law, and deemed proper by said commission.

City of Louisville, Mayor's Office
June 25, 1902

To the Honorable the Board of Aldermen,
Gentlemen:

Thursday, June 28, 1906

	Returned herewith, without approval, an order passed by your Honorable Board June 14th which reads as follows, -
By your Honorable Board -	
	That the strip of land at the northwest corner of Glen street and Fountain avenue be placed in charge of the Committee on Public Grounds.
	My reason for not approving this order is that it conflicts with Section 49 of the city charter, part of which reads as follows.
	"No member of a committee of the board of aldermen shall directly or indirectly, take part in the ---- construction, alteration, or repair of any public work, or other property in the care, custody, or management of the same.
	Respectfully,
	Geo O Gordon
	Mayor.
Placed on file.	

1 Order	On the order returned with the foregoing veto message, placing the land at the northwest corner of Glen street and Fountain avenue in charge of the Committee on Public Grounds, the said order on reception of the veto message was reconsidered, and its adoption, notwithstanding the objections of the Mayor, was had by a yea and nay vote, - Aldermen Gilder and Caldwell - 2, voting in the affirmative, and Aldermen Kenneth, Hoey, Jackson, Cushman, Littlefield, Garvin, Kenney, Finch, Pike, Cross, Smith, Haines, Waller, Hackett and the President - 15 - voting in the negative, - Aldermen Kenniston, Gordon, Reynolds and Naughton - 4 - being absent or not voting.
1 Petition	Received a petition from Patrick H. Ryan, for appointment as a special police without compensation: approved by the Chief of Police, and accompanied by a communication from the Mayor, appointing the said Ryan, as special police without compensation, subject to confirmation by the Board.
	Rules suspended and appointment confirmed.

City of Somerville, Mass.
Mayor's Office.

June 25 1902.

To the Honorable the Board of Aldermen
Gentlemen:-

Pursuant to an order passed by your Honorable Board May 9th, requesting the Mayor to confer with the Metropolitan Park Commission and ask them to establish an open air bathing place on the Mystic River in the Park Reservation, I communicated the desire of the Board to the Park Commission, and have received in reply the letter herewith produced.

Respectfully,
Geo O Proctor.
Mayor.

Boston, June 16th, 1902.

Hon. George O. Proctor, Mayor,
Somerville, Mass.

Dear Sir:-

Your letter of June 12th was read to this Commission, at its meeting June 13th and the Board desires me to say that under the appropriations for this year it is not possible to establish at the present time a bathing place such as was requested by you in pursuance of the order of the Board of Aldermen.

The Board desires me to say further, however, that if the City of Somerville, or private individuals, desire to establish such a bathing place for public use, the Board will be very glad to consider the matter and render suitable regulations allowing the use of any land which is fit for that purpose.

No persons interested appearing and desiring to be heard, the hearing was closed.

Received the following veto message from Chas Lyon, the Mayor. — Veto ✓

City of Somerville, Mass.
Mayor's Office

July 9, 1902

To the Honorable the Board of Aldermen,
Gentlemen:-

I return herewith, without my approval, an order passed by your Honorable Board June 27, 1902, requesting me to take no further action in the matter of purchasing land for a schoolhouse on Ward Four, or for a schoolhouse on or near Ward Seven, under previous orders passed by you.

My objection to this order is that before its passage I had already bargained for two lots of land for the purpose named, and in my judgment the city cannot, in fairness, decline to carry out its agreements.

Respectfully,

Thursday, July 12, 1900.

Geo. O. Coates,
Mayor

Communications

Received, also the following communication from his Honor, the Mayor - supplementary to the petition presented before:-

City of Roseville, Cal.
Mayor's Office
July 9, 1900

To the Honorable the Board of Aldermen,
Gentlemen:-

I desire to supplement, with the following statement, my communication of even date, returning, without my approval, an order passed by your Honorable Board June 28, 1900, which reads as follows:

Ordered:-

That the Mayor be, and he hereby is requested to take no further action in the matter of purchasing land for 3rd and Four schoolhouse, as provided for in an order passed by this Board June 7th, or in the matter of purchasing land for a schoolhouse in or near Hand Town, under an order passed June 14th.

The first order referred to in the order above quoted authorized me to purchase a suitable lot of land in Hand Town as the site for a six-room schoolhouse, and the other authorized the purchase of a suitable lot as the site for a schoolhouse in or near Hand Town, neither ordering designating any particular lot.

As regard to the land in Hand Town two lots were considered. The first is on the northeasterly side of Prospect street, near Oak street, and measures 70 feet in width and 117 feet in depth, width and area of 9,360 square feet, more or less, and could be purchased for fifty cents per foot.

The proposed schoolhouse will measure 79 1/2 feet in width by 75 1/2 feet in depth, and could not be placed on a lot of only 50 feet frontage. A somewhat narrower building might be designed, but it would be inferior, and even then would be too close to the boundary lines. My home, on the lot adjoining the premises on the northeasterly side, there is a three-story apartment building on the front, with a stable

Thursday July 13, 1905.

immediately in its rear; both of these buildings being as near the dividing line between the lots as the law allows, or only 15 inches distant. There is also an 8 story iron rear of the stable, on land which fronts on Fremont street. With the three buildings mentioned within a few feet of the schoolhouse, and on the sunny side, depriving it of light and air, omitting the offensive odor of a stable, and passing the noise incident to iron working, the contemplated occupations, even if allowed, erected, would greatly be detracted, and the deliberate locating of a schoolhouse amid such surroundings would cause general comment.

It is the duties of the city to have the very best school houses that can be obtained, and their location is of the greatest importance and both present and probable future surroundings and conditions should be carefully considered.

The lot above platted is situated on Potter street near Oak street, distant only about 350 feet from the Prospect street lot, in a straight line, and 600 feet by way of the streets. It is well situated on a street which, though not yet graded has been accepted, and has beautiful shade trees. This lot is 100 feet wide by 165 feet deep, containing about 21,000 square feet, and is surrounded by dwelling houses, all of moderate height, so that good light and air would be secured. The price agreed upon is $4,000.00. The cost of the other lot would be, about $4,650.00, and it has 20 feet less frontage, and 1,650 square feet less area. There is no appreciable difference in the grades of the two lots.

Two lots have also been considered for the purpose of a school house site, near Grand Avenue, either of which could be purchased for 25 cents per foot. One is on the westerly side of Willow avenue, at the corner of Forest street, and the other on the easterly side of Willow avenue, at the corner of Frederick avenue, and extending through to Josephine avenue. Both of these lots are well situated, but the one first mentioned contains a ledge of hard stone, in consequence of which the excavation of the cellar would consume considerable time, and be very expensive. The cost of digging a cellar on the other lot would be comparatively small, and this lot, with the advantage of a frontage on three streets, induces me to select it. It measures 126 by 161 feet, and contains 20,093 square feet, more or less. The lot referred to on the westerly side of Willow avenue

in favor of Mr. Barger.

Notwithstanding the vote of this order, no further action has been taken in the matter since the passage, and the City Clerk the city legally bound to complete the purchase of the lots, electric lights, &c. for the consideration of each member of the Board in the matter, and trusts that such conclusive action will be taken at the meeting of July 12 th. as will expedite the plans looking to the construction of the two proposed buildings, both of which will be needed for occupancy at the earliest possible day.

Respectfully

Geo. O Proctor,

Mayor

√ Order

On the order returned by the Mayor with the foregoing communication, requesting him to take no further action in regard to the purchase of land for a police house in Rockton, and for a pest house in or near Hyde Park, for reconsideration, upon the vacation of the veto message, the order was laid upon the table.

Later in the evening taken from the table, and its adoption notwithstanding the objections of the mayor, lost by a yea and nay vote, Aldermen Hilder, Littlefield, Houghton, Kenny, Walters and Stackpole voting in the affirmative, and Aldermen Grimmons, Stay, Sanborn, Reynolds, Buchanan, Pike and President Wilcox voting in the negative, Aldermen Preston, Huntsville, Caldwell, Ennis, Neal, Boyce, Smith and Warner absent, or not voting.

√ Petition

Received a petition from Franklin H. Hopkins for appointment as a constable of this city, approved by the Chief of Police and accompanied by a communication from the Mayor appointing Franklin H. Hopkins a constable of the city, for the remainder of the municipal year, subject to confirmation by the Board of Aldermen.

Read, suspended and appointment confirmed.

√ Communication

Received the following communication from the City Collector,

July 12, 1900.

Thursday, July 12, 1900.

To the Honorable the Board of Aldermen of the City of Somerville

Gentlemen:-

In your inquiry contained in your order dated June 25, 1900, in regard to the rights under the present city charter of the Board of Aldermen and the several committees in relation to advertising of bids, awarding of contracts, and the advertising and disposal of labor, I reply as follows:

The city charter provides that "the legislative department shall never exercise any executive power" (sect. 2); "the executive power of the city shall be vested solely in the mayor" (sect. 20); "no member of a committee of the board of aldermen shall directly or indirectly take part in the making of contracts for the construction of any public works or in the conduct of the executive or administrative business of the city."

In the case of White v. the Mayor of Newton, which was tried in the Superior Court and arose under provisions in the charter of the city of Newton, almost identical with the provisions in our charter, it was held by Judge Richardson in a decision rendered March 17, 1899, that a contract which was about to be made by the mayor, at the suggestion of a committee of the city council, was, invalid, and a writ of injunction was ordered to be issued against the execution and delivery of the contract.

In his opinion the court said: "The thing which the statute (that is, the charter) "thinks fit to the aldermen is the taking part in the trade, in the negotiation, in the business and determination of the amount and the terms of the contract, and to whom it shall be awarded. . . . It was intended, I think, by this provision, wherever found in a city charter to put the whole duty and responsibility of the conduct of the executive and administrative business of the city upon the mayor, not in form merely, but in reality, and to make him independent and free from obligations, legally and morally, to the aldermen. . . . I do not think that this provision ("no member . . . shall directly or indirectly take part . . . in the making of contracts") is satisfied with by merely having contracts signed and executed, in due form by . . . the mayor; the mere execution of the papers, which evidences the contract, is not the "making of

contract within the meaning of the statute; ... the law has confined the duty ... upon the mayor declaring in effect that the matter shall be determined by and upon his judgment and if he not thinks it is sufficient answer under this explicit provision of the law for him to surrender his judgment to that of the board of aldermen even if the mayor thinks in a particular case that their judgment is better than his.

In accordance with this opinion, I think that the board of aldermen and the several committees have no rights in relation to the examination of bids and awarding of contracts.

The examination and approval of plans are matters that stand on a different basis and may to a certain extent be regarded as a part of the legislative power. Under the charter it may be said in general that it is for the board of aldermen, subject to the veto power of the mayor, to determine what shall be done and that it is for the executive department of the city government to determine how the orders of the board shall be carried out and to carry out the same.

If, after awarding an appropriation, the board passes an order in general terms authorizing the erection of a building, I think the executive department has authority to make plans and contracts and secure the erection of the building without any further action or interference by the board or any committee, and that, on the other hand, the board has the power in its order authorizing the erection of a building to fix the location, size, kind of material, number of rooms, etc., in short, to determine what kind of a building shall be constructed, and that it will then be the duty of the executive department to erect the building according to the terms of the order. The board may by one order direct plans to be procured by the executive department and may require such plans, or plans procured by the executive department in the absence of any order, to conform to the wishes of the board as to the kind of building to be erected and the board may authorize a building to be erected in accordance with plans so examined and approved, it being left to the executive department to determine how the plans shall be procured, as in the matter of making contracts for the erection of a building, as above stated.

Yours very respectfully,

Thursday, July 12, 1900

1 Petition to Superior Court for abolition of grade crossing over tracks of F.R.R. at Mystic street

(see page 8.)

Middlesex ss

To the Honorable the Justices of the Superior Court sitting in Equity for the County of Middlesex.

Petition of the Mayor and Board of Aldermen of the city of Somerville, a municipal corporation within the said county of Middlesex.

Your petitioners respectfully represent:

That there is a public way in said city of Somerville called Mystic street which is crossed at grade by the tracks of the Fitchburg

Commonwealth of Massachusetts

Superior Court

Thursday, July 12, 1900

Railroad Company, now leased to the Boston and Maine Railroad, being railroad corporations established under the laws of said Commonwealth, and operating a steam railroad thereon, that your petitioners are of the opinion that it is necessary for the security and convenience of the public that new alterations should be made in said crossing, in the approaches thereto, in the grade of either or both said way and said railroad, and in the location of either or both said railroad and said way, so as to avoid a crossing at grade and so that said way shall pass either over or under said railroad.

Wherefore your petitioners pray that, a commission may be appointed as provided in chapter 425 of the Acts of the Legislature of said Commonwealth for the year 1890, and acts in amendment and additions thereto, to decide if such alterations are necessary as aforesaid, to prescribe the manner and limits within which such alterations shall be made, to determine which party shall do the work or to apportion the work to be done between said Fitchburg Railroad Company and Boston and Maine Railroad, and said city of Somerville, to apportion between said Commonwealth and said city of Somerville their proportion of the cost of such alterations, and make such other and further decisions in the premises as may be authorized by law and deemed proper by said commission.

On the order for the taking of land for the purpose of a schoolhouse, offered at the last meeting, and which reads as follows, namely:- Order ✓

Whereas it is deemed advisable and expedient that the City of Somerville, a municipal corporation within the County of Middlesex and Commonwealth of Massachusetts, should take, maintain and hold in fee for the purpose hereinafter set forth the parcel of land hereinafter described.-

Now, therefore, be it known and it is hereby ordered that by virtue and in execution of the authority conferred by chapter 499 of the Acts of the Legislature of said Commonwealth for the year 1897, entitled An Act to authorize the taking of land for schoolhouses, and by chapter 379 of the Acts of said Legislature for the year 1899 entitled An Act relating to the taking of land by cities and towns, and

by virtue, and in execution, of every other power and authority it hereto enabling, the said city, by the city council, does hereby take in fee, and will, and does hereby take, appropriate, and hold in fee, for the purpose of erecting thereon a building to be used for a public school, a certain parcel of land, with all the privileges, easements and appurtenances thereto belonging, situated in said Somerville and shown on a plan entitled "Plan of Lots in Somerville, Mass. belonging to H. A. Rice," dated July 1, 1899, and recorded in the registry of deeds for the southern district of said county of Middlesex, book of plans 123, plan 13; said parcel of land consists of lots numbered 66, 67, 68, 98, 99 on said plan and is bounded northwesterly by Willow avenue, one hundred and twenty-six 87/100 feet; northeasterly by Frederick avenue, one hundred and fifty feet; southeasterly by Josephine avenue, one hundred and twenty-four 29/100 feet; southwesterly by lot numbered 69 on said plan, eighty feet; southeasterly by said lot numbered 69, two and 57/100 feet; and southwesterly again by lot numbered 97 on said plan, eighty feet; all as shown on said plan.

That statement is hereby made of the purpose for which the same is taken, to wit, for the purpose hereinbefore set forth.

It is further ordered that the Mayor of said city be hereby directed in behalf of said city to sign and cause to be recorded in the registry of deeds for the southern district of said county of Middlesex, the statement that said city takes said parcel of land as aforesaid, and as a description thereof sufficient for identification, and the statement of the purpose for which the same is taken, as copy of this order and indorsement.

It is estimated and determined that all damages sustained by any person or corporation by the aforesaid taking of said land, amount in the aggregate to the sum of five thousand twenty three and 20/100 dollars ($5020.20) being sustained by Hattie A. Rice of said Somerville and by Frederick T. Hoyt and Jacob Rogers, trustees, as mortgagees, interested owners or by reason thereof, as appears on which order, after receiving its first reading, action was postponed at the last meeting until this meeting, under section 15 of the City Charter, on objection of Alderman Cope.

1 Communication the Mayor. - Received the following communication from his Honor the Mayor.

City of Spencerville, Ohio.
Mayor's Office.
July 17, 1902.

To the Honorable the Board of Aldermen,
Gentlemen:

I have received the order passed by your Honorable Board on the 12th inst. requesting me to procure plans for a 6-room school building, the outside dimensions of which shall not exceed 60 x 70 feet and the cost of which shall not exceed $35,000.00.

At my request the Commissioner of Public Buildings has given me a statement as to the practicability of providing a school house such as the order contemplates. It will readily be seen by his communication which is presented herewith, that it is not practicable to erect such a building, and the preparation of the plans called for would be a waste of time and effort. I should consider it an unwise precaution to erect a school building inferior to the average of those already built.

The Commissioner has, by my direction, obtained 6-room school houses, and will submit his drawings for your inspection, to show what he considers a desirable building of the capacity required. It seems to me advisable and I would recommend that these plans

be provided at once, so that the Commissioner may be given his instructions without unnecessary delay, as the building will be needed for use early next year.

Respectfully,
Geo. O. Proctor
Mayor

City of Evansville,
Evansville
Office of Commissioner of Public Buildings,
City Hall, July 16, 1900.

George O. Proctor, Mayor,
Dear Sir:-

In compliance with your request for a statement as to the possibility of constructing a six-room school building, not to exceed 60' x 70', I have the honor to submit the following:

The dimensions of 60' x 70' are not sufficient to properly accommodate a six-room school building according to modern requirements. Such a building would require three school rooms on the first floor and three on the second. There is substantial agreement among authorities that a school room, properly constructed, should furnish 20 square feet of floor surface to each child in attendance. This demands from 1,000 to 1,200 feet of floor surface for a school room for from 50 to 60 children. The regulation size of school rooms for primary and grammar schools is 25' x 32', although rooms 30' x 32' are not uncommon. If we take for a standard size 28' x 32', each room would occupy a space of 1,020 square feet, which would include the enclosing walls of rooms. Three rooms of such description would cover an area of 3,060 square feet. The entire building as described, viz. 60' x 70', would cover an area of 4,200 square feet. By deducting the area of the three class rooms, as above, there would remain an area of 1,140 square feet. This remaining space would be insufficient to take care of the re-

Wednesday, July 15, 1903

remaining requirements of the first floor, such as corridors, stairways, coat rooms, heating and ventilating ducts and entrance halls. The total available space required for corridors and entrances would be 700 square feet, for stairways 204 square feet, for coat rooms 816 square feet, for heating and ventilating ducts 306 square feet, or a total of 1,416 square feet. It will be plainly seen from these figures that the dimensions as stated, viz. 60'x72', would not be adequate to meet the requirements of such a building.

The three latest six room school buildings which the city has constructed are the Sanford E. Hanscom, the Albion A. Perry and the Forster Street. The first of these three named contains a floor area of 5,154 square feet, and is 94' 6" in width and 56' 9" in depth, the second contains an area of 5,565 square feet, and is 56' feet wide and 95' feet deep, the third contains an area of 5,256 square feet, and is 99' in width and 60' 4" in depth. I quote these figures to show that it would be impracticable to construct a six room school building of modern requirements and construction and keep within the dimensions of 60' in width and 70' in depth. However, it would be feasible to construct such a building which would not exceed 60' in width, but in order to do so the depth of the building would be, at the least feasible calculation, 90'

Dear Sir:-

Understanding that a hearing is to be given tonight before a committee of the City Government in regard to the laying of a common sewer in Bonnell avenue, we desire to say that we have had no formal notification whatever of the proposed meeting, and as extensive real estate owners on both sides of that avenue, we protest against the laying of a sewer there at this time and the assess-

ing of its cost per lineal foot adjoining estate, and we hereby give notice to the Committee before whom the matter may be pending that we shall claim damages for any taking of land in the bed of said street which may be made for the laying of such sewer.

We do not desire to stand in the way of the development of the neighborhood or the widening of other abutters on the upper part of the street and could any arrangement be made whereby the laying of the pavement may be postponed until the time of entering the sewer by the petitioners we let pass we should probably have no objection to the undertaking. Will you please have this matter brought to the attention of the proper committee this evening.

Truman Robinson

1 Hearing

In pursuance of an order adjourned June 29, a hearing was given for all persons desiring to object to the laying out of Bell street from Cedar street to Cherry street, all parties interested having been duly notified as appears by the officer's return recorded on page 339 of volume 3 of the Records of the Laying Out of Streets of the Mayor and Aldermen of the City of Evansville.

Adolph Pauly appeared and objected because a foot of the land inside of his fence is to be taken and a shade tree in front of his premises would be destroyed. He would not object to the laying out if an allowance from these objections were adopted.

J. J. Hayden appeared and objected in behalf of Jerome J. Hayden, owning at the southwesterly corner of Bell street and Cedar street, because the proposed laying out will cut about 5 inches from the store on his premises. The store was built inside the fence and presumably wholly on his land. The new street is 60 feet wide and any reduction in the width would be a serious damage.

No other persons interested appearing and desiring to be heard the hearing was closed.

To the Honorable the Board of Aldermen,
Gentlemen:-

Pursuant to an order passed by your honorable board July 15th, I have caused to be prepared in the office of the commissioner of public buildings plans for a six-room schoolhouse to be erected in ward two, and submit them herewith for your consideration. These plans contemplate a convenient, roomy, well arranged building, equal in all respects, and in some particulars superior to any of those already erected.

The plans are satisfactory to the superintendent of schools, and meet all the state requirements as to heating, ventilation, sanitation, hallways, etc. and have been examined by the committee on public property of your honorable board.

City of Somerville, Mass
Mayor's Office
July 25, 1900

To the Honorable the Board of Aldermen,
Gentlemen:-

I return herewith, without my approval, an order passed by your Honorable Board July 15th, which reads as follows:

Ordered:

That the Mayor be, and hereby is, requested to obtain from architects, none of whom shall be city employees, plans for a new six-room schoolhouse in Ward Six.

Thursday, July 26, 1900

I object to this order for two reasons: first, because, in the opinion of the City Solicitor, it is illegal, as aforesaid; his communication transmitted herewith; and second, because I believe the limitation which renders it illegal, namely, -- that the plans be obtained from architects, none of whom shall be city employes, is unwise from a business standpoint.

In my communication recommending the appointment of an assistant to the Commissioner of Public Buildings I said: "It should prove comparatively easy to obtain for the position possessing the requisite practical ability for an inspector, and also having sufficient knowledge of architecture to draft the plans for ordinary frame buildings."

We have passed for the position just such a man as my statement describes, one who is well fitted for the work by technical education and by experience as a designer, a draftsman and a superintendent of construction. The plans for the school-houses in Mad Fox Lane were made by him under the direction of the Commissioner.

Within a few years the city has erected three or four school-houses, and the Commissioner of Public Buildings, with his experience in superintending their construction and repair, should know better than any architect what improvements are desirable in a new building of the same kind. It may also be assumed that plans and specifications prepared under his direction will provide for a building of proper construction.

The plans which have been prepared for the schoolhouse in Mad Fox are suitable for the schoolhouse in Mad Dog, and I recommend that they be used for both buildings.

It has been suggested that it may be desirable, at some future time to enlarge the buildings to be erected in Mad Dog, and if this is contemplated the location of the lot should be adapted to that end. Believing, however, that when further accommodations are needed, it will be better to erect a separate building on another lot, and that the present building should be located without reference to enlargement. The lot purchased is not too large or too expensive for a six-room building; making additions to schoolhouses is always attended with more or less expense, and I think it is better to provide a sufficient number of primary buildings for small children near their homes, than to require them to walk a considerable distance to reach a grammar school.

Thursday July 26, 1900

Do not pay that I would not invite outside architects to submit plans, if no larger or more elaborate building were to be erected; I am merely considering only the case in hand. We have two simple buildings to erect, the combined cost of which will be about $60,000.00, and to pay five per cent of this sum, or $3,000.00, for plans and supervision, when we can obtain equally good results without making this expenditure would, in my opinion, be absolutely unjustifiable. Economy is one of the first principles of municipal government, and here is an excellent opportunity to practice it.

Respectfully,

George O. Proctor,

Mayor

Placed on file

The communication from the city solicitor presented with the foregoing veto message from his Honor the Mayor, is as follows:— Communication ✓

July 25, 1900.

Hon. George O. Proctor, Mayor of Somerville,

Dear Sir:

Your favor of July 20 inst. at hand asking my opinion as to the legality of an order of the board of aldermen, a copy of which is as follows: "July 15, 1900. Ordered, that the mayor be and hereby is requested to refrain from architects, crews of whom shall be city employees, to draw for a new six room school house in ward six."

In my opinion the order is invalid for the reason that the subject matter of the order does not come within the functions of the legislative department of the city government. The selection of a suitable person to make plans, in like manner as the selection of a suitable person to erect a building, belongs to the respective department, and the board of aldermen cannot impose restrictions in regard to the persons who shall be employed or contracted with by the mayor. The responsibility resting upon him of obtaining plans to the best advantage of the city. See sections 2, 20 and 29 of the charter and the opinion given by me to the board of aldermen July 12 in regard to the making of contracts.

The duties and powers of the board of aldermen and of the

Thursday, July 26, 1900

powers are derived from the same source, namely, the city charter, and neither can assume the powers or the duties of the other. In a case involving the powers of the executive and legislative departments the court said: "The powers of the ... departments are not merely equal, they are exclusive, in regard to the duties given to each. They are absolutely independent of each other. The duties imposed on each are separable and distinct. The persons charged with the execution of these powers are alike elected by and are responsible to the people."

It was decided a few years ago by the supreme court of this state that a mandamus might issue to compel the mayor of a city to perform the duties of his office. In a case referred to in the opinion above mentioned, an injunction was issued to restrain the mayor of another city from executing a certain contract at the suggestion of a committee of the board of aldermen on the ground that his proposed action was contrary to the requirements of the charter.

Now it appears that it is contemplated with the mayor's sanction he will perform the duties and exercise the powers given him by the charter, but he may be obliged to do so, &c., and any action on the part of the legislative department tending to interfere with his powers and duties is invaded, even if asserted to by him.

Yours very respectfully,

Frank H. Kerr,

City Solicitor.

Agreement ✓
Construction of Cutis St. & Harris Court Sewer

The agreement referred to in the foregoing order is as follows:

Agreement between the City of Cambridge, and the City of Somerville, municipal corporations in the County of Middlesex, and Commonwealth of Massachusetts.

Whereas the lots abutting on Harris Court as shown by the plan entitled "Harris Court Sewer Plan" dated April 25, 1900, on file in the City Engineer's Office of each city, and referred to as a part of this agreement, are partly within the City of Somerville and partly within the City of Cambridge, and:-

Whereas no adequate outlet for the drainage of these lots can be provided by the existing sewers of the City of Cambridge but can be secured by connecting with the main trunk sewer in Beacon St. in the City of Somerville:

Now it is covenanted, declared and agreed by and between said Cities in manner following, namely:-

1.

That the City of Somerville shall construct the sewer from the main sewer in Beacon street through Cutis street to the line between the cities of Somerville and Cambridge, of the size and laid upon the grades as shown upon the plan above referred to. The cost of constructing said sewer to be paid by the City of Cambridge. The City of Somerville will maintain, keep in repair, clean, and in connection with the portion of said sewer in Cambridge this portion of the sewer which is in Somerville, for the period of twenty-five years from date with the option on the part of said City of Cambridge to renew this agreement upon said terms herein mentioned for a second period of twenty-five years, said option to be exercised within three months of the time of the expiration of said first term by vote of City Council of Cambridge

2.

The City of Cambridge shall at its own expense construct the sewer from the dividing line between the Cities of Somerville and Cambridge in Cutis street and Harris court as shown on the said plan, and shall maintain, keep the last mentioned portions of the sewer in good repair, clean said in connection with the portions of said sewer in Somerville during the continuance of this agreement. The City of Cambridge shall indemnify and save harmless the City

Thursday, July 26, 1900

of Somerville from all claims for damages made by owners of land arising out of the taking of land on Bustis street for the purpose of laying a sewer therein.

3

That the City of Cambridge shall and extend the sewer in said Bustis street and Prospect beyond the lines and limits, as aforesaid by the said lines on said plan, indicating the length and location of said sewer, one inch sewer of a size larger than the size indicated on the plan, accordingly — Ten inch pipe and twelve inch pipe, may build any other drains or sewers to connect with or discharge into said Bustis street and Prairie Court sewer, now allow to be built, any drains or sewer, which shall discharge into said Bustis street and Prairie Court sewer, except drains for the accommodation of estates directly abutting on said Bustis street and Prairie Court, and within the limits, as shown by the said plan

And generally it is hereby agreed and understood that said Bustis street and Prairie Court sewer shall not be in any way used except for draining said Bustis street and Prairie Court, and conducting away sewage from the estates directly abutting as aforesaid on said Bustis street and Prairie Court, so that no passage or drainage from any other street or estates shall be conducted through the sewer, except by and with the previous consent of the City of Somerville, as applicable to the sewer in said Bustis street and Prairie Court in Cambridge, and except by and with the previous consent of the City of Cambridge, as applicable to the sewer in said Bustis street in said Somerville

4

That those owning estate lying wholly or in part in the City of Somerville, abutting on said Bustis street and Prairie Court, who have not already paid one assessment for the construction of any sewer in Beacon street Somerville, shall have the right respectively to enter their particular drains for the benefit of said estates into said Bustis street and Prairie Court sewer, upon the payment to the City of Somerville of such rate of assessment, as may be levied and provided by law for entering other mains, drains and sewers in Somerville, at the time said connection is made, the proportions therewith to be made in accordance with the rules and regulations of the City of Somerville in regard to entering pipes

Thursday, July 26, 1900.

law drains into common sewers. Such assessments, so levied, shall be collected and forthwith paid to the City of Cambridge as part consideration of this agreement on the part of said City of Cambridge.

The City of Somerville however, shall not be required to levy any assessment upon any part of an estate lying wholly or in part in Somerville abutting on said Baxter Street and Bacon Street, which part has already been assessed for the construction of any sewer in said Bacon street nor shall any owner of any such estate be required to pay for the construction of said sewer in Baxter street and Bacon Street except for such portions of said estate as has not already been assessed. In Witness Whereof the said City of Cambridge has caused its corporate seal to be hereto affixed and these presents to be signed in its name and behalf by Edgar A. Champlin, its mayor, and the City of Somerville has caused its corporate seal to be hereto affixed and these presents to be signed in its name and behalf by George O. Porter its Mayor, both said Mayors being hereto duly authorized by orders of the City Councils respectively of said Cities copies of which are hereto annexed this twenty-fifth day of July, A.D. 1900.

Aldermen Grimmons offered the following order,-

Whereas it is deemed advisable and expedient that the City of Somerville, a municipal corporation within the County of Middlesex and Commonwealth of Massachusetts, should take, maintain and hold in fee for the purposes hereinafter set forth the parcel of land hereinafter described,-

Now, therefore, be it known, and it is hereby ordered that by virtue and in execution of the authority conferred by chapter 499 of the Acts of the Legislature of said Commonwealth for the year 1897 entitled "An Act to authorize the taking of land for school houses," and by chapter 379 of the Acts of said Legislature for the year 1899 entitled "An Act relative to the taking of land by cities and towns," and by virtue and in execution of every other power and authority it hereto enabling, the said city, by its city council

Thursday, July 26, 1900.

does hereby take in fee (and will and does hereby take, maintain and hold in fee) for the purpose of erecting thereon a building to be used for a public school a certain parcel of land with all the privileges, easements and appurtenances thereto belonging, situated in said Somerville and shown on a plan entitled "City of Somerville Plan showing land proposed for a school house lot, in ward two," dated June 26, 1900, to be recorded in the registry of deeds for the southern district of said county of Middlesex; said parcel of land being bounded as follows: beginning at a point on the southwesterly side of Bolton street distant one hundred and one and 7/10 feet from Oak street, measured northwesterly along said southwesterly side of Bolton street, thence the boundary line runs southwesterly on said Bolton street one hundred feet; thence turning at a right angle and running northwesterly one hundred and ten feet; thence turning at a right angle and running northeasterly one hundred feet; thence turning at a right angle and running southeasterly one hundred and ten feet to the point of beginning; containing as marked on said plan, 11,000 square feet.

That statement is hereby made of the purpose for which the same is taken, to wit, for the purpose hereinbefore set forth. It is further ordered that the mayor of said city be hereby directed, in behalf of said city to sign and cause to be recorded in said registry of deeds, as a statement that said city takes said parcel of land aforesaid, and as a description thereof sufficient for identification, and as a statement of the purpose for which the same is taken, a copy of this order and instrument.

It is estimated and determined that all damages sustained by any person or corporation by the aforesaid taking of said land amount in the aggregate to the sum of four thousand dollars, being sustained severally by Elbow B. Harrington, Nathan B. Harrington, Walter S. Harrington, George O. Harrington and Wilbur O. Harrington, as the owners or by whoever may be the owner.

Received the following communication, — Communication ✓
Somerville, August 9, 1902 — George A. Gearen declining election as City Treasurer

To the Honorable,
the Board of Aldermen,
Gentlemen,-

The conditions encountered after my election as city treasurer have compelled me to decline to accept the office, and I hereby make such declination.

Had I anticipated the nature of the contest, or the strength of the feeling that brought to pressure in my present position, I would not have sought the office, and I cannot bring myself to accept it against the judgment of many who, while holding for me the kindest feeling, yet believe the change would not promote the city's interests.

To enter upon so important and responsible an office under such circumstances requires more courage than I possess.

To permit the impression that I have been persuaded to take this action, despite to my client all the advice which I have received have been in favor of accepting the election, and I have decided not to do so simply because I felt unable to pursue any other course.

I desire also to make at this time that no action be taken on the order now pending in relation to the salary of the city clerk.

Thursday, August 9, 1900

I fully appreciate the honor of the position, and thank the board sincerely for the same

Very respectfully

George A. Vincent

√ Indenture
(See index page 152)

This indenture, entered into the foregoing order is as follows:-

This Indenture made this sixteenth day of August in the year one thousand nine hundred, by and between Henry K. Sprague, Elliott A. Evans, and Henry O Ashcott, the Metropolitan Water Board, duly constituted and appointed, under and according to the provisions of chapter 485 of the Acts of the Legislature of the Commonwealth of Massachusetts of the year 1895, of the first part, and the City of Somerville, a municipal corporation, within the county of Middlesex and the Commonwealth aforesaid, of the second part, Witnesseth:-

That we, the said Henry K. Sprague, Elliott A. Evans, and Henry O Ashcott, the Metropolitan Water Board aforesaid, by virtue and in exercise of the powers and authority of said Act, and of chapter 195 of the Acts of the year 1899, and of every other power and authority us hereto enabling, and in consideration of one dollar paid by the said City of Somerville, the receipt whereof is hereby acknowledged, and in further consideration of the execution of this indenture by the said City, hereby grant, bargain, sell and convey unto the said City of Somerville a certain tract of land situate in said city containing twenty-eight thousand nine hundred ninety-two (28992) square feet, more or less, shown as shown entitled "City of Somerville, Plan of Property extending from Central Street to Clarendon Street and Vicinity" dated June 1, 1899, Ernest W. Bailey, City Engineer, filed in Middlesex registry of deeds, South District, and bounded and described as follows, to wit: Beginning at a point marked by the centre of a stone bound which is in a common tangent point of two curves, the said point being distant eighty-six and ninety-two one-hundredths (86.92) feet easterly southerly from the southeasterly angle of the brick base of the pumping engine of said Commonwealth, sometimes called the Metropolitan pumping station, which stands on the easterly margin of Clarendon Street and ninety-four and twenty one-hundredths (94.20) feet northeasterly from the southeasterly angle of the brick base of said pumping station, thence running southerly by a curve to the left four hundred seventy-eight (478) feet more or less to the southeasterly bank of the Mystic river, the said curve being one arc of a circle having a radius of four hundred sixty (460) feet, and whose centre bears in a direction north 6° 3' west, referred to the magnetic meridian, from said point of beginning; thence turning and running northeasterly by said southeasterly bank

Thursday, August 16, 1900

eighty-six (86) feet more or less to a point on the arc of a circle having the same centre as the last mentioned circle and a radius of five hundred forty (540) feet; thence southwardly and easterly by the last mentioned arc three hundred fifteen (315) feet more or less to a point marked by the centre of a stone bound set in the northwesterly line of land now or late of Jeremiah Robinson and others, said point being distant one hundred thirty-seven and thirty-three one-hundredths (137.33) feet northwesterly from the northerly angle of the brick face of the old water works pumping station formerly of the City of Boston, now of said Commonwealth, sometimes called the Mystic pumping station, and one hundred fifty-two and thirty-five one-hundredths (152.35) feet northwesterly by a line parallel with the northwesterly face of the brick house of the last mentioned pumping station; thence turning at an acute angle and running northeasterly by the northwesterly line of said land now or late of Jeremiah Robinson and others forty-eight and forty-six one-hundredths (48.46) feet to the centre of a stone bound; thence turning at an acute angle and running southerly and southeasterly by the westerly boundary line of said land now or late of Jeremiah Robinson and others two hundred fifty-nine (259) feet more or less to the point of intersection of said boundary line with a curve parallel to the curve of the first curve above mentioned, the said reverse curve being the arc of a circle having a radius of four hundred fifty (450) feet and whose centre bears in a direction south 63° east, as viewed from the aforesaid meridian, from the point of beginning; thence turning at an acute angle and running northeasterly by said reverse curve twenty (20) feet to said point of beginning, excepting and reserving unto the Commonwealth and its assigns from and out of the land hereby conveyed the rights of way and other easements therein intended to be reserved to the Commonwealth by this instrument and more particularly hereinafter set forth.

To Have and To Hold the above granted premises, with all the privileges and appurtenances thereto belonging, to the City of Somerville and its assigns, to its and their own use and behoof forever, to be maintained for the purpose and as a part of a parkway or boulevard extending from the westerly side of Broadway, adjoining Ultan Street, thence in said Somerville in a general northwesterly direction to Mystic River.

Tuesday August 16, 1904

And on the said Byron K. Sprague, Calvert A. Evans, and Harry C. Walcott, the Metropolitan Water Board aforesaid, acting for the Commonwealth and assuming no personal liability on the part of us or any of us, hereby covenant with the City of Somerville and its assigns that the Commonwealth, and its assigns will hold the remaining lands now under the care and control of the said Water Board and within the distance of one hundred (100) feet from said parkway, and herein called "said restricted lands" subject to the following restrictions which it is agreed shall be inserted or referred to in any conveyance hereafter made by the said Water Board or said Commonwealth of the whole or any part of said restricted lands:

1. No building now or hereafter erected or placed on said restricted lands shall be used for a livery or public stable, nor exceed five stories in height above the basement or cellar, nor exceed seventy feet in height from the mean grade of the sidewalk in front to the ceiling of the uppermost story of such building (except in the case of churches and chapels), and no roof shall be used for laundry purposes or for drying clothes.

2. No tenement or apartment house of more than three stories, nor wooden block consisting of more than two houses, nor wooden house or block standing at a distance of less than five feet from either side line of the lot upon which the same is placed, and no wooden house costing less than three thousand dollars ($3000), nor brick or stone house costing less than six thousand dollars ($6000), nor wooden apartment house of two stories costing less than four thousand dollars ($4000), nor wooden apartment house of three stories costing less than six thousand dollars ($6000), nor apartment house of brick or stone costing less than three thousand dollars ($3000) for each of apartments inclusive in each case of the cost of the land, shall be erected or placed upon said restricted lands.

3. No building or part thereof shall be erected, placed or maintained upon said restricted lands within fifteen (15) feet from the exterior line of said parkway, provided however that steps may be built or maintained within said restricted space of fifteen (15) feet.

The foregoing restrictions shall continue in force so long as said parkway shall be maintained by said City of Somerville or by the Commonwealth, and so long as the Commonwealth and its assigns, owning or interested in said remaining lands now under the control of the Metropolitan Water Board, shall have fee and uninterrupted access to

Thursday, August 16, 1900

said franchway, and shall enjoy the rights hereinafter secured to the Commonwealth, the said franchway, except the parcel of land hereinbefore excepted, being laid out and described in a certain instrument of taking signed by the mayor of said City of Somerville, dated September 29, 1899, and recorded in said registry of deeds, book 2770, page 421, and the whole of said franchway being fully delineated upon said plan.

And the said City of Somerville, in consideration of one dollar paid by the Commonwealth of Massachusetts, the receipt whereof is hereby acknowledged, and in further consideration of the execution of this indenture by the Metropolitan Water Board, does hereby grant, bargain, sell and convey unto the Commonwealth of Massachusetts and its assigns, power of appointment in the adjoining lands now of the Commonwealth, the following rights and easements, viz:

First. The right to use for all the purposes of a public highway the parcel of land first above described, together with that portion of said franchway which extends from said parcel of land to the nearest public highway in said Somerville, provided that whenever some other public highway hereafter laid out in said Somerville and suitably constructed shall connect with said franchway at a point nearer the parcel of land above described than the present nearest highway, the right to use said franchway as a public highway shall thereafter be restricted (except as hereinafter provided) to the parcel of land above described and to that portion of said franchway which extends from said parcel to the highway thereafter laid out and constructed as aforesaid.

Second. The right to use at all times hereafter the remaining portion of said franchway, to wit, that portion not subject for the time being to the easements above granted in paragraph numbered first, for all the purposes of a way, subject however as to said remaining portion to such reasonable rules and regulations as may from time to time be imposed by said City of Somerville or by any commission, board, or other officer of the Commonwealth having the care and control of said franchway.

To Have And To Hold the above granted rights and easements to the Commonwealth of Massachusetts and its assigns, to its and their own use and behoof forever, as easements appurtenant to their said adjoining lands.

Said premises a part of said franchway described as aforesaid

Thursday, August 16, 1928

in said instrument of taking, over land, out over lands in said Somerville owned by said City - Which are found in or over land near Alewife Brook and now conveyed to said City by Henry F Hyde by deed dated December 16, 1890 and recorded in said registry, book 2033, page 359, and is shown, called the "parkland" on said plan and that land between said Alewife Brook and Spring St and now conveyed to said City by Edwin A Russell and Irving A Russell, administrators with the will annexed of the estate of Levi Russell, and by them by deed dated June 5, 1899, and recorded as aforesaid, Book 2752, page 45

Now therefore the said City of Somerville hereby covenants with the Commonwealth of Massachusetts and its assigns and with the Metropolitan Water Board that the said City and its assigns will build that part of the lands conveyed to it, as aforesaid which lie within the distance of one hundred (100) feet from said parkway, subject to the like restrictions hereinbefore contained relating to the lands of the Commonwealth, which said restrictions it is agreed shall be inserted or referred to in any conveyance hereafter made by the said City of the whole or any part of the land so restricted.

And the said City of Somerville hereby further covenants with the Commonwealth of Massachusetts and its assigns, and with the Metropolitan Water Board that the said City will within a reasonable time, not exceeding ____ years from the date hereof, construct or cause to be constructed the words 'the said city will' omitted in the final agreement.

within the land first above described and within that portion of said parkway which extends from said land of land to the nearest public highway, as roadway and walk of suitable width and finish, within which may hereafter be used, operated and enjoyed the rights and easements hereinbefore granted by said City to the Commonwealth in paragraph numbered "first", and further that the said City of Somerville will complete the construction of said boulevard or parkway continuously through the strip of land described in three parcels in said instrument of taking and through the tract of land first above described, the whole together extending from Broadway Somerville to Mystic river, within ____ years from the date hereof.

In Witness Whereof the said Henry H Sprague, Filmer A Bowen and Henry P Follett, the Metropolitan Water Board aforesaid, have to this instrument and to another of like tenor, set their hands and seals

Thursday, August 16, 1900

and the City of Somerville has caused its corporate seal to be affixed to said instrument and the same to be signed in its name and behalf by George O Porter, its Mayor, hereto duly authorized, on the day and the year first above written.

Regular Meeting of the Board of Aldermen,
City Hall, Somerville, September 13, 1910 - 8 P.M.

The President, Alderman Gilbert presiding.
Aldermen Simmons, Preston, Gilbert, Kenneth, Caldwell, Stacy, Sanborn, Reynolds, Gardner, Littlefield, Hampton, Kenney, Lind, Pike, Boyce, Smith, Glover, Hollis and Shadrick present.
Records approved.

On performance of communication approved July 12, ordering and giving for all persons desiring to object to the construction of granolithic walks, with edgestones, where not already set, on Broadway, on the southeasterly side from Cedric street to the Abington Line and on the northeasterly side from the Hollis estate No. 469, to Powder House square, and from Teele square to the Abington Line, all petitions, instructed hearing from duly notified, as appeared by the officer's return recorded on page 386 of Volume 4 of the Records of Aldermen - Hearings on Construction of the Mayor and Aldermen of the City of Somerville. Hearing.

Charles F. Shea, Esq. representing George Russell and Lillian R. Gaw, frontage, appeared and objected. Their land, which stands some thirteen hundred feet on Broadway, between Byatt street and Austin street, is lying idle. It has been on the market some time but they have been unable to sell lots on Broadway. Cedric street, with three houses on and near Fairmount avenue. A sidewalk is not needed and would be a needless expense both for the abutters and the city. A single sidewalk on that section would be adequate for the needs of the city and should be built, if at all, on the southwesterly side of the street, where there are several houses.

Mr. Charles O. Tobin appeared and objected if the construction of the sidewalk would make necessary the taking of any of his land or the removal of the steps of his house. The sidewalk in front of his house is higher than the street and some five or six inches ago it was reduced in width to about three feet in front of his premises. There was no greater necessity for widening the street at that point than heretofore existed. It was already wider than at some other points. There appeared to be some uncertainty as to the line of the

Thursday, September 19, 1907

street, and a petition had been presented to have the line determined and established. He brought his property a few years ago in good faith and had paid taxes on it and should not be made to suffer any loss.

Alexander A. Searle also appeared. He did not object to the sidewalk unless it would involve the taking of land from the abutters, and in that case he would object on the same grounds as stated by Mr. Jadin.

No other persons interested appearing and desiring to be heard the hearing was closed.

√ Hearing

On presentation of an order approved August 3, a hearing was given for all persons desiring to object to the construction of a gravel sidewalk with adjustments on the southeasterly side of Broadway from Brodie Avenue east to Tufts square; all parties interested hearing been duly notified as appears by the officer's return, recorded on page 395 of Volume 4 of the Records of Sidewalks - Hearings and Construction of the Mayor and Aldermen of the City of Somerville.

Thomas H. Armstrong Esq., one of the trustees of Tufts College appeared on behalf of the College, and objected to the proposed sidewalk. The college has a frontage of some two thousand feet on the line of the proposed sidewalk. None of the land is improved, and is not on the market for sale, nor will it be for many years to come, if ever. An arrangement has recently been made with the city for the free use of a considerable portion of the land by the school boys of the city, as an athletic field. That is on account of the sidewalk, as one on the southwesterly side of Broadway would be adequate for public travel. The college has paid large sums, as assessments for common sewers which are used by the college only, for the drainage of a few houses on Professors' Row. The college has also given a large amount of land for the boulevard contemplated by the city through its premises, and should not now be subjected to further expense on account of this sidewalk.

No other persons interested appearing and desiring to be heard, the hearing was closed.

√ Hearing

On presentation of an order approved July 27, a hearing was given for all persons desiring to object to the construction of a

gravel sidewalks with edgestones, on Summer street on the southwesterly side from Belmont street to Elm street and on the southwesterly side from Elm street to Dudley street, where such sidewalks are not already constructed; all parties interested having been duly notified as appears by the affirmative record on page 392 of Volume 4 of the Records of Aldermen, hearings and Consideration of the Mayor and Aldermen of the City of Somerville. No persons interested appearing and desiring to be heard, the hearing was closed.

Received the report of the City Engineer that sewers have been constructed under authority of orders dated May 14, June 7 and July 26, 1900, as follows:- Report ✓

On permission of rescript, approved September 14, a hearing was given for all persons interested in the petition of L. Aaron Bailey for a license to keep eighty horses in a brick stable to be erected at 57 Dane street, due notice of the hearing having been given as required by said order. Hearing ✓

Mr. Bailey, the petitioner, appeared and stated that he proposed to erect a brick stable three stories in height, provided with every modern convenience. On the street front, at either side of the entrance to the stable, he proposed to have a store. The site of the proposed stable is about 160 feet from Dane square and is now occupied by a dwelling tenement dwelling house with four rooms in each tenement. The surroundings of the lot be described as follows: - Beginning at Dane square with Shannon Block, then a wooden shoe store, then Packer's wooden stable, then a blacksmith shop, then the proposed rear stable, then a small wooden building used as a paint shop. On the opposite side of the street are the stables of the East End Street Railway Company.

Mr. Bailey introduced A. D. Brown, who is engaged in the business of supplying fittings for stables, and who would probably supply them for Mr. Bailey if the stable were erected. Mr. Brown said that each stall would have an iron floor under the wooden one and would be drained directly into the common sewer. A pit of masonry would be provided for the manure, and in modern stables it is the rule to keep a wagon standing in this pit to receive the manure which is removed daily.

Mayor George A. Libby, Alcott O. Chaplin, Jos. F. Burnham, Louis R. Perry, William H. Ward, A. D. Brown - representing the Kenny

R. Howe, state, J. F. Rathaway 2nd, Frank L. Rolfe, appeared and objected to the granting, if a license, for the following reasons — 1st, stable of the most perfect construction and sanitation will be objectionable. Spurs leaves odor will arise from it, and its erection will detriment to a large extent the character of other buildings to be erected in the vicinity. Spurs Works case not called for in this locality. With the exception of the small portion of the street described by Mr. Bailey, at the end next to Davis square, the entire street is taken up with good residences, and the addition of another large stable would be, in my opinion, damage to them. There is no need of another livery and boarding stable in the vicinity, as there now have a large number of stalls unoccupied. The old stables of the West End Street Railway Company referred to by Mr. Bailey are no longer used, and no doubt will be removed. It has been hoped that the end of the street near Davis square may be widened, and otherwise improved, and this project will be hindered, if not prevented, by the erection of this stable. As to the interests of the petitioner, Mr. Rathaway was of the opinion that a good apartment house with stores on the street for would pay very much better than the stable. The stable now there in which some thirty-four horses are kept, is a nuisance, damage to adjoining property, and the odor is at times so great that the windows in the Sprague & Rathaway block have to be kept closed, much to the discomfort of the large number of employes. This difficulty will be increased by the erection of another stable as large as the one proposed.

No other persons interested appearing, and desiring to be heard the hearing was closed.

Regular Meeting of the Board of Aldermen
City Hall, Somerville, October 11, 1900 - 8 P.M.

Aldermen Spearmore, Porter, Gilday, Centerwall, Caldwell,
Story, Sanborn, Reynolds, Gubbosson, Littlefield, Naughton, Kenney, Finch,
Pike, Boyce, Warner, Walters and Stackpole present.
Records approved.

In pursuance of an order approved September 11, a hearing was given for all persons desiring to object to the construction of a gravel sidewalk with edgestones on the southwesterly side of Knowlton street from Temple street to the estate of William B. Holmes; all parties interested having been duly notified as appears by the officer's return recorded in Vol. 4 Page 161 of Records of Aldermen, Hearings and Constructions, of the Mayor and Aldermen of the City of Somerville. Hearing ✓

Mr. Greene, in behalf of Laura L. Greene, N. Ellsworth Fiske, in behalf of his mother Sarah A. Fiske, and D. J. B. Briggs, in behalf of the First Evangelical Church, appeared, and objected because the sidewalk is not needed, the land adjoining the same, except the church lot, being vacant and the street not being an important thoroughfare. None of the persons of the petition will be liable for assessment, and the abutters do not want the sidewalk at the present time and do not feel like paying for it. Mr. Fiske said that a fine row of trees, planted about fifty years ago in front of his premises, were directly in the line where the edgestone would be set. The sidewalk also is higher than the street and when lowered the fences must be re-set, and the ground more or less regraded.

Mr. William B. Holmes appeared, and favored the sidewalk, saying it was needed to give the street a good appearance and to complete the edgestones and framed gutters in that part of the street, as well as for economy of maintenance. In heavy rains the street is badly washed out because the gutter on the southwesterly side is not framed, the wood materials being carried down by the water to Temple street, leaving Knowlton street badly gullied, and sometimes in a dangerous condition. The petitioners have been asking for this side

Action by the board defered until after the expiration of not less than three nor more than ten days, as required by law.

Received the following communication from the Board of Commissioners of the Poor:-

To the Honorable, the Board of Aldermen,
Lynnfield, Mass.

Gentlemen:-

The Board of Overseers of the Poor respectfully request that a transfer of Three Thousand Dollars, $3,000.- be made to the Maintenance account of this Department, and One Thousand Dollars, $1,000.- to City Farm account. Three amounts will be necessary to pay the bills for the remainder of the year. The reasons why we are compelled to ask for this additional to our Maintenance appropriation are, - first. Owing to the rapid increase in our transfer income, we have paid out nearly as much in the 9 months of this year as we did for the whole of 1899.- second - The natural increase in our city population makes the expenses of this department more each succeeding year, - third - The appropri-

action for this account was not for a large amount as was asked for by the Overseer of the Poor

In asking for the $100 for the City Farm for the remainder of the year we will say that you Board has found it necessary to expend about the above account for permanent "Farm Supplies" in addition to the regular expenses. These supplies are now on hand and will not have to be furnished for next year. If any further explanations are required we shall be very glad to make them to any member of the Board

Very respectfully

City of Somerville, Mass.
Mayor's Office.
October 15, 1900.

To the Honorable the Board of Aldermen,
Gentlemen:—

I return herewith, without my approval, an order passed by your Honorable Board October 11th, granting a license to the chairman and secretary of the Socialist Labor Party to hold political meetings, prior to the next annual state election, in the public squares of the city, as follows:—

In Union square, at the junction of Washington street and Somerville avenue, every Monday evening; in Davis square every Wednesday evening; and in Gilman square every Friday evening.

My principal objection to this order is that I deem it unwise to allow the use of our public squares for gatherings of any sort.

The three squares mentioned, formed, as they are, by the junction of many avenues of travel, are crossed by numerous lines of cars which run at very frequent intervals, and there is, at almost all times, a continuous passing to and fro of teams and pedestrians, so that the gathering of any considerable crowd of people might be attended with danger besides obstructing travel.

Neighboring cities, similarly situated to our own, do not grant such privileges in their public squares. Similar petitions for licenses to hold series of street meetings have been presented to our city government for years past, and they have always, I believe, been refused. I can see

Thursday, October 17, 1901

our good record for departing from this custom in the present instance.

Respectfully,
Geo. O. Gordon,
Mayor

Received the following veto message from His Honor the Mayor,
City of Somerville, Mass.
Mayor's Office
October 15, 1901

To the Honorable the Board of Aldermen,
Gentlemen:-

I return herewith, without my approval, an order passed by your Honorable Board October 14, 1901, which reads as follows:

Ordered: - That the City Treasurer be, and hereby is, directed to transfer the sum of five thousand dollars from Sewerage, Int. & Sinking accounts to Highways - Widening of Homer street, account.

It does not appear that any petition has been presented for the widening of Homer street, or that the subject has been considered by your Honorable Board, or any committee thereof, and so far as I know, no plan or sketch has been prepared showing the lines of the proposed widening, nor have any estimates of the cost been made.

The only part of Homer street that is a public street is a portion 40 feet in width and 375 feet in length, extending eastwardly from

Thursday, October 17, 1901

Walnut street

The remainder of this street is a private way, and is situated in the City Engineer's report to be 50 feet wide.

Some twenty-four years ago the southwesterly side of a portion of this private way was practically placed to public travel by removing the soil to a considerable depth from the remainder of the street and the abutting lands, and leaving this part and the lands adjoining at the original level.

I assume that the only consideration has reference to the portion of the street just mentioned, but as it is a private way, the mode of procedure should be by laying out, and any appropriation that may be made should be for that purpose. It seems to me, however, that the matter has not, as yet, taken such tangible shape as would warrant any appropriation.

As now, the lands abutting are unsightly at its original level, and which includes about one half the width of the street, a part of the part which the city is authorized by an act of the legislature to acquire for park purposes, and adjoins the land already taken. If the purpose herein of this authority is contemplated, it seems unwise to complicate matters by the passage, at the present time, of this order or any looking to the laying out of the street.

I am aware that the abutters on this part of the street have for many years suffered inconvenience because of its bad condition and the existence of the high bank of earth on the opposite side. The laying out of the street, even at its full width, would, however, only a partial remedy, and if done, at the present time would partially hinder the park project, and cost much more than it would after the park takings shall have been fully consummated.

Respectfully,

Geo. A Proctor,

Mayor.

√ Hearings

Ordinance of record approved October 12, hearings given for all persons desiring to object to the construction of sidewalks on

Adams street
Beacon street
Broadway place
Broadway street
Crescent street
Everett street
Walnut street

and

Westminster street

All parties interested having been duly notified, as appears by the affidavits recorded respectively on pages 404, 407, 410, 413, 416, 419, 422 and 425 of Volume 4 of the Records of Sidewalks. Hearings had before the Mayor and Aldermen of the City of Lonsville.

Now, the matter of the construction of a sidewalk on Wilson street, on the southwesterly side, from Crockett place to Lowell street, there seems to be a brick sidewalk, the edgestones being already set. Mr. Homer L. Richardson appears and presents petitions, on Wilson and Lowell streets, appeared and objected because a brick sidewalk is not needed, and if constructed will be unable to pay for it, as the present gravel sidewalk, it being on the side of the street where the sun does not shine. If a brick sidewalk is to be laid, it should be on the opposite side, where petitioners say, but have been provided. Mr. Brown, owning and residing on the house on Wilson street at the corner of Central street, appeared and objected because the gravel sidewalk is sufficient and he does not care to meet the expense.

Mr. Richardson also presented a remonstrance against the

construction of the sidewalk on Albion place, signed by William Loftus owning the premises numbered 12 and 14. - Mary J. Kanda owner of No. 1 & 3 Baxter place, owner of No. 4 & 6 Baxter place, owner of No. 50, Thomas A. Dennis, owner of 54 Bell & Deary, owner of No. 70 and Mr. Richardson himself, owner of No. 55.

Mr. Linder presented a letter addressed to himself by Mr. F. B. Hollis, upon these, expressing his objection to the proposed sidewalk on Albion pl. for two reasons, - first: it would not be a sufficient convenience to pay for the cost, and second - a brick sidewalk is not good enough, being very slippery and dangerous for persons and cutting out of order easily.

The communication and letter were placed on file.

No other persons interested appearing and desiring to be heard, the hearings were closed.

Re Issuance of new order, approved September 14, allowing new pins, for all persons desiring to adjust to the Laying out of Horace field street; all parties interested having been duly notified as appears by the officer's return recorded on page 556 of Volume 8 of the Records of the Laying Out of Streets, of the Mayor & Aldermen of the City of Somerville. — Hearing ✓

1 Communications

Received the following communication from his honor the mayor -

City of Somerville, Mass.
Mayor's Office

November 5, 1908

To the Honorable the Board of Aldermen

Gentlemen: -

I transmit herewith a communication from the President of the Board of Trustees of the Public Library, which I have received by me together with the accompanying deed and check in payment of four thousand dollars.

This amount constitutes a gift made to our Public Library by Mrs Harriet M Laughlin daughter of the late Isaac Pitman, an early and honored citizen of Somerville. The gift is made in remembrance of the donor's father, Somerville's first librarian, to promote the interests of art through the agency of our library. The act is indeed a generous one and yet this is not the first time that our city has been similarly favored by this benevolent lady. Her course is worthy the emulation of other persons of means who desire to express in some substantial way their love and appreciation of our good city, and to perpetuate the memory of those who have helped to make it what it is.

Thursday, November 8, 1900

The gift has already been accepted upon the part of the Library Trustees, and I have transmitted the four thousand dollars to the City Treasurer. I recommend that it be accepted by your Honorable Board, and that an suitable expression of appreciation be forwarded to the donor; also that the City Treasurer be instructed to place the income from the fund to the credit of the Library, in accordance with the terms of the deed.

Respectfully,
Geo. O. Porter
Mayor.

Copy of above mentioned Communication from Trustee of the Public Library.-

Hon. George O. Porter, Mayor,
Somerville, Mass.

Dear Sir:-

At a meeting of the Board of Trustees of the Public Library held this evening it was

Voted:- "That the President be instructed to transmit to His Honor the Mayor, the sum of four thousand dollars donated to the City of Somerville by Mr. Harriet Hunt Laughlin, for the use of the Somerville Public Library, together with the deed of gift accompanying, addressed to the Trustees of the Public Library and request the acceptance of the gift by the city government.

In accordance therewith I now beg to hand you herewith check to the amount of four thousand dollars payable to the order of the City Treasurer, also deed of gift conveying same.

Respectfully submitted,
Chas. A. Gut
President of the Public Library

Somerville, Mass. Oct. 20, 1900.

Copy of deed of Gift from Mrs. Harriet Hunt Laughlin
To the Trustees of the Somerville Public Library

In addition to the sum of one thousand dollars donated by me

Thursday, November 5, 1900.

on the twenty-seventh day of October, 1897. I now desire and do hereby donate the additional sum of four thousand dollars for the following uses and conditions.

First: the sum so given shall be held by the City of Somerville in trust for the use of the Somerville Public Library and shall be known as the Isaac Pitman Library Fund.

Second: the sum so given shall be invested in such securities as the City Treasurer for the time being, shall deem advisable, and the interest or income thereof shall be placed at the use and disposal of the Trustees of the Public Library of the City of Somerville, to be expended by the said Trustees at their discretion, in the purchase for the use of the Library of works of art, illustrations, decorations, or otherwise.

Third: the regular annual appropriation by the City Council for the use of the Public Library shall not be diminished in consequence of this donation.

I make this gift in the memory of my late father, Isaac Pitman, subject to the deep interest in the welfare of the Somerville Public Library and who was its first Librarian.

Received the following communication from the School Committee, — Communication

Oct. 29, 1900.

To the Board of Aldermen
of the City of Somerville

Gentlemen:— At a meeting of the School Board held Oct. 29, 1900, the following recommendation of the Committee on Additional School Accommodations was unanimously adopted, and referred to your Honorable body:—

1. That the City Government be requested to erect a two story building, for primary school purposes, on the Jackson lot on Poplar Street, with a view to accommodating pupils now attending the Bennett, Jackson and Prospect Hill schools. These pupils now occupy antiquated structures, without ventilation or suitable sanitary conveniences, stove-heated, and in marked contrast to the school accommodations furnished in other sections of the city. We feel that the children that will be accommodated by the proposed building, in view of their environment and their necessarily brief school life, are entitled to the very best the city has to give, and that years of fruitful waiting should be rewarded by modern school conveniences.

2. Your committee wishes also to renew that part of its recommendation of January, 1900, relating to the erection of a six room building in Ward VII in the Hodgkins district.

The building now being erected on Hillsdale avenue would be filled to-morrow if it were completed, by children now on half-time in Wards VI and VII. Such is the present and prospective growth of the westerly section of the city that immediate provision for needs in 1901 is demanded if we would avoid a repetition of the crowded conditions of schools that has given rise to so much just complaint in recent years.

Yours respectfully,

G. A. Southworth, Secy

Board of Health
City of Somerville
November 2, 1900.

Hon. George O. Foster,
Mayor of the City of Somerville
Dear Sir:-

At a meeting of the Board of Health held this date it was voted to request that hospital accommodations be provided

Thursday, November 15, 1900

for the care and treatment of persons suffering from contagious diseases dangerous to the public health. And the protection of said Board, the safety of the inhabitants of the city demands that suitable accommodations shall be provided for the reception and treatment of persons suffering from such diseases.

This petition is taken under chapter 511 of the Acts of the General Court for the year 1894.

Respectfully submitted,
For the Board of Health,

City of Somerville, Mass.
Mayor's Office
November 15, 1900.

To the Honorable the Board of Aldermen
Gentlemen:-

I transmit herewith a communication received by me from Mr. William T. Henderson, in regard to the work of our fire department and police officers at the recent conflagration which visited his establishment.

I believe that his very commendatory words are in every way deserved by these departments which I consider second to none in our Commonwealth in faithfulness and efficiency of their members. While our people are ever alert to discover fault, or the actions of these public guardians of property and law and order, the opportunity to praise and commend is not always taken when presented.

Such a letter as the one enclosed is a source of gratification to all who have the well being of the city at heart, and I therefore take pleasure in presenting it to your Honorable Board, that it may be read and made public.

Respectfully,
Leo O Proctor,
Mayor

The following is a copy of the communication from William F. Henderson, transmitted by his Honor, the Mayor, -

Somerville, Mass. Nov 12th 1900

To his Honor, Leo O Proctor,

Mayor of the City of Somerville Mass

During the recent fire at my place there was evidence enough that you had a fine and police force who were amply able to cope with any danger or disaster which might befall the City, and which any City might be found of.

At one time it looked as though the surrounding buildings were doomed, but the valuable assistance of Chief Hopkins came to the rescue His assistant, Parker, and the well drilled firemen were in for it. They started, at nothing with prompt work, and level headed management they confined everything in one building and the worst of the damage was water.

Words of praise were heard on all sides, and firemen from Cambridge said it was the best handled fire they had seen for a long time.

Chief Parkhurst sent us some valuable men who did good work and kept the crowd at a safe distance, so that the firemen could work to advantage.

Thanking every one for their kindness and assistance,

I am most respectfully yours,

Wm F. Henderson

Records approved.

On performance of new order adopted October 19, at hearing Hearing ✓
was given for all persons desiring to object to the laying out and
laying out of the northwesterly part of Broadway and the discontinu-
ance of a portion thereof from a point about 51 feet southeast of Jaw
Bird avenue to Bedford street, under the provisions of law authorizing
the permanent of betterments. All parties interested having been duly
notified no appearance by the officials returns recorded on page 583 of Volume
3 of the Records of the Laying Out of Streets, of the Mayor and Aldermen
of the City of Somerville.

Mr. Charles E. Jordan appeared, not to object to the proposed
laying out and discontinuance, but because it will affect his interests
as under the proposed plan, about one and one-half feet will be cut
from his front steps. It seemed to him that the edgestone might be
set out low enough into the street to admit of a sidewalk of suitable
width without cutting away the steps. Although the street was laid
out some thirty or more years ago by the County Commissioners at
a width seven feet greater than that now proposed, yet this seven
foot strip, which was on the northwesterly side of the street, had never
been entered upon and used as a street, but on the contrary had been
occupied as a part of the abutting estates, and the taxes thereon had
been collected.

Mr. Alexander H. Sprowle, also appeared, and stated that
the proposed measure would necessitate the cutting away of his steps
and about fourteen inches from the width of the frontage, damaging
the estate greatly to the amount of some $1500. Widely in order
to rent his property, he would have to convert the house into a two
or three tenement building which would bring in a cheaper class

of tenants. He thought the edgestone should be put out into the street the depth asked, and not be removed.

No other persons interested appearing, and desiring to be heard, the hearing was closed.

√ Hearing. In pursuance of an order approved October 19, a hearing was given for all persons desiring to object to the laying out of South street from Medford street to Water street, all parties having been duly notified, as appears by the Officer's return recorded on page 395 of Volume 5 of the Records of the Laying Out of Streets, of the Mayor and Aldermen of the City of Somerville.

No persons interested, appearing and desiring to be heard, the hearing was closed.

√ Hearing. In pursuance of an order approved October 19, a hearing was given for all persons desiring to object to the laying out of Dyer street from Medford street to the Boston and Lowell Railroad, under the provisions of law, authorizing the assessment of betterments, all parties interested having been duly notified, as appears by the Officer's return recorded on page 3 of Volume 4 of the Records of the Laying Out of Streets of the Board of Aldermen of the City of Somerville.

George L. Rice, Esq. appeared as counsel for Annie L. Fuller the owner of seven lots on the street, and Hilary A. Roberts, Alice L. Clark and John A. Russell, and objected because the plan is not sufficiently comprehensive, as it conforms, substantially, to the present grade of the street. In all probability the railroad bridge, which is an old and frail structure, will soon be removed, and a wider and higher bridge substituted. This would necessitate a radical change in the grade of the street. The street is now in fairly good condition, probably as good as it would be if accepted by the city, and his clients do not wish to bear the expense of laying it out as a public street at the present time. Moreover, the street is not used to any great extent as a public thoroughfare, and he did not consider that the convenience and necessity of the public required that it should be laid out as a public street.

No other persons interested appearing and desiring to be heard the hearing was closed.

Thursday, November 13, 1902

In pursuance of an order adjourned October 16, a hearing was given for all persons desiring to object to the layout out of London Road, from Gardenia Road to Hillcrest avenue, under the provisions of law authorizing the reassessment of betterments; all parties interested having been duly notified as appears by the affidavit recorded on page 371 of Volume 3 of the Records of the Laying Out of Streets, of the Mayor and Aldermen of the City of Evansville.	Hearing ✓
No persons interested, appearing and desiring to be heard, the hearing was closed.	
In pursuance of an order passed November 5 and adjourned November 12, a hearing was given for all parties interested in the petition of Timothy O'Brien and others for a hearing regarding the completion of a certain building on process of erection for manufacturing purposes on the northerly side of Otis street, the city clerk having certified four of the petitioners and requested them to inform others interested, and having also notified the owners of the building of the time of the hearing. Messrs. Timothy O'Brien, William Deazie, Mrs. Julia T. Quick, Wm. Dillon and Messrs. Franklin L. Titus, Charles L. Hayden and Edward M. Bruggeo and Mr. Driscoll appeared and objected to the completion of the building. It was stated that the premises in question on Otis street, consisting of a lot of land upon which is a planing mill building containing a carpenter shop and a steam building establishment and also a manufactory for tops; it is also used largely for storage purposes and in its vicinity are several stables. Mr. Kimball, the occupant of the building, brings from Boston trading cases and bales with refuse paper, bagging and other trading material, with many glass jars and garbage. All this is stored, untied, used on the premises on Otis street and also to some extent on the sidewalk in front of the premises, making a great accumulation of highly flammable material, which is a constant menace to the safety of surrounding property and the occupants of the same, the building having been on fire at different times. The refuse material is burned in the furnace and a greasy, oily substance comes from the chimney and settles upon the surrounding property, and at times the dew from the chimney	Hearing ✓

Thursday, November 22, 1900.

is quite offensive. The extension to the building, now being made, is being constructed largely of the packing case brought there.

R. Kimball, the proprietor, stated that he had accumulated a lot of lumber which was offered to the Commons, and he had covered it with a shed with glass sides. He expected to close in the shed, but if the board will not allow it he can leave it as it is. When the fire took place no damage was done to surrounding property except scorching the paint on the next house. Before the fire he, and a partner had a building on Middlesex avenue for the storage of the packing cases, etc. brought from Boston. He left everything he had when the premises on Otis street were leased, and had to abandon the Middlesex avenue property to his partner. He said that some vegetable matter is contained in the hassle which he brings from Boston.

No other persons interested appearing and desiring to be heard, the hearing was closed.

Received the following communication from his honor the Mayor.

City of Somerville, Mass.
Mayor's Office
November 19, 1900.

To the Honorable the Board of Aldermen,
Gentlemen:-

I return herewith, without my approval, an order passed by your Honorable Board November 5, 1900, which reads as follows,

Ordered:- That a police signal box be located on South street near Foster street; the expense is assessed to be charged to Electrical Department account.

I am opposed to the installing of any more police alarm boxes this year, as much as the electrical department's original appropriation of $7000. will be exceeded, and because the city is very well equipped in this regard.

Moreover, this box does not seem to be greatly needed, as this locality is fully as well protected by this means as are other sections of the city, and this location is at the dead end of a street and close to the Cambridge line. There are police signal boxes in the city

less than 800 feet apart, and many are separated by a distance of more than 1000 feet. The location mentioned is within 600 feet of an present box and within 1000 feet of another box. On the western end of the city the boxes are from 1500 to 2000 feet apart. The police are given comparatively little trouble in the vicinity of South street and it is considered a very orderly section.

City of Evansville, Ind.
Mayor's Office
November 19 1900

To the Honorable the Board of Aldermen,
Gentlemen -

I return herewith, without my approval, an order passed by your Honorable Board Nov 5, 1900, providing for the locating and maintenance of a number of additional electric lights. While these lights are perhaps desired, there is hardly an urgent urgency for locating them at present.

The number of street lights has become a very important item in the annual budget of appropriations, the amount for the present year being nearly $54,000. practically all of which will be expended by the

Thursday, November 23, 1905

cost of the system, and on account of the heavy expense of the department it is very necessary to go slowly in the location of new lights, and especially arc lights. During past years, cases have frequently been placed where the small but efficient incandescents would have answered the purpose, and after arc lights are once located the change to incandescents generally meets with objections from the citizens of the neighborhood. I believe that the location of arc lights should be confined almost entirely to main thoroughfares.

While the cost of these additional lights for the few remaining weeks of this year could probably be afforded from the present appropriation, the burden of the expense would, of course, fall upon the next city government, the proposed lights causing an annual increase, at present prices, of some $90 for the department's expense. Again, a new contract which contemplates a radical change in the system of street lamps, is now under consideration, and I believe it inadvisable to install new lights there are absolutely necessary while this important matter is pending.

The precedent of locating a considerable number of new lights near the close of a municipal year has already been established, but I consider it unfair to burden succeeding city government with providing for the maintenance of lights so located and I believe the practice can advisably be discontinued.

Respectfully,

Geo. O Gordon,

Hon George O Proctor,
Mayor.
Dear Sir:-

Thursday, November 23, 1905.

During the present year I have expended from my appropriation pertaining over $3,500.00 for construction and improvement of the fire hydrant system. I had hoped to be reimbursed for this outlay by charging the service to the Fire Department for whose benefit the work was performed, but some objection has been raised to this method of accounting the expenditure. I need the money however, to carry my contracts made to completion, such as I am informed by the City Treasurer I shall be will have an substantial surplus in the water income account after providing for all the bonded debt requirements of this year. I desire to ask that you will obtain from this source, if it seems advisable to you, a transfer of $3,500.00 to water works extension account.

Very truly yours,

√ Communication

Mayor -

Received the following communication from his honor, the
Mayor:-
City of Somerville, Mass.
Mayor's Office

Thursday, December 13 1900

December 13, 1900.

To the Honorable the Board of Aldermen,
Louisville, Ky.

The passage, at yesterday's meeting of the order in relation to the erecting of the new police-house on Third St. between Jas. and Jno. probably be appreciated, is a delicate question, and the subject is one which, for evident reasons, I am loth to discuss.

On the one hand, I duly appreciate the honor conferred upon me. I am grateful also for the courtesy shown me by the Committee on Public Property in reporting the order giving my name to the building, and for that of your Honorable Board in its adoption. The reasons advanced for your action were, I believe, conciliatory, namely that the building is one of the first to be constructed under the plans and direction of the Commissioner of Public Buildings, as recommended by me, and that it is located in my home ward.

There, could always be, an especial pride in the two buildings which have been constructed this year, because I have been so closely concerned with their erection, and chiefly for the reason that they are, to my mind, model police-houses, fronted at comparatively small cost. Should action it as a great honor to have one of Louisville's public buildings bear my name, and the remembrance that it was done by the action of a Board of Aldermen with which I have been associated would always be especially gratifying.

But viewing the matter from its other side, I believe that the recommendation of the School Board is a wise one. Professor Brown has been for many years a prominent factor in educational matters. His seventeen years' service as a member of our School Board is but a feat of a distinguished career in his chosen line. He has long been one of our most respected citizens. The naming of this building in his honor would add credit to Louisville's reputation as a city which leads in school matters, and would also be a just tribute to the long and valued service of Professor Brown.

Therefore, I respectfully ask your Honorable Body to reconsider this subject, and sincerely trust that you will decem it wise in this instance to follow out the recommendation of the School Committee.

Communications

Received the following communication from his honor the Mayor:-

City of Somerville, Mass.
Mayor's Office
December 30, 1903.

To the Honorable the Board of Aldermen
Gentlemen:-

I hereby recommend that Edwin F. Judkins Captain of Hose Company No. 5 of the Fire Department be paid the sum of Five Hundred and Twenty-four Dollars for expenses incurred by him in the settlement of a suit brought by Frank Carney against him for damages resulting from an accident while driving to a fire.

This recommendation is made in accordance with the provisions of Chapter 320 of the Acts of the General Court for the year 1902, which reads, in part, as follows:-

Any city may ... to an amount not exceeding the amount which may be recommended by the board or officer having the power to appoint firemen or any member of the fire department in such city, indemnify a fireman for any expenses or damages suffered or incurred by him sustained while acting as a fireman or incurred in the defence or settlement of any suit brought against him for acts done while so acting.

I have made careful investigation of the case in hand and am convinced that this was an unavoidable accident, and that the driver was using proper diligence and reasonable care
